Faridpur.—No. 351P.H.—28th January 1930.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Government of Rengal (Ministry of Local Self-Government) are pleased to make the following rules subject to which the Commissioners of the Faridpur Municipality may allow communi-cation-pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to holdings for domestic purposes only:-

#### Rules.

So long as the Commissioners deem practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 200, to lay down communication-pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purpose only, subject to the following rules and conditions:

Provided that connections shall be permitted in houses below the annual value of Rs. 200, whose owners or occupiers have already made full payment of the fee prescribed under rule 2 on or before the 31st March 1930:---

- 1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.
- 2. Every such owner or occupier shall pay to the Commissioners between any work is commenced a fee of Rs. 120 or each connection if the payment is made of or before the 31st March 1930 or a fee of Rs. 200 for each connection if such payment is made after that connection is such payment is made after that connection is such payment is made after that connection is such payment. date, in addition to all other costs and charges payable under these rules.

Except as provided below, dech holding must have separate connection to the municipal main supply pipe and extension from the communication-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners in a meeting connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if, in any case, the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto on payment of an additional fee equivalent to the

one prescribed in rule 2.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of

- making such connection.

  5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire tost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.
- (1) The works required under rules 4 and 5 may, at the option of the Commissioners. either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commis-
- (2) No work shall be carried out under sub-rule (1), except under the supervision of a municipal officer.

ing condition or a state of disrepair:

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may

have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by general order shall have the power to turn off the supply for a period not exceeding eight hours, on his previously recording his reason in writing.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screwdown."

Every tap shall be at least 3 feet above the

surface of the ground beneath.

18. No cistern, tank, reservoir of any description which is intended to be supplied with the water from the municipal waterworks shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimension and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank, or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away. Such provision shall include the construction of a cement plastered masonry platform under the taps and of a pucca drain leading from such platform discharging freely into a public drain or other

suitable outfall.

New Delhi, the 18th January 1930.

No. 64-M.-I/30.—The following Amended Reprint of the Order in Council, dated the 13th October 1910, consolidating Orders in Council making Regulations for preventing collisions at sea and Rules as to Signals of Distress, is published for general information:—

AT THE COURT AT ST. JAMES'S, THE 13TH DAY OF OCTOBER, 1910.

PRESENT:

# The King's Most Excellent Majesty in Council.

Whereas by section 418 of the Merchant Shipping Act, 1894, His Majesty is empowered from time to time on the joint recommendation of the Admiralty and the Board of Trade by Order in Council to make regulations for preventing collisions at sea, in the said Act referred to as Collision Regulations:

And whereas by section 424 of the said Act it is provided that whenever it is made to appear to His Majesty in Council that the Government of any foreign country is willing that the said regulations or any of them should apply to the ships of that country when beyond the limits of British jurisdiction, His Majesty may, by Order in Council, direct that those regulations shall, subject to any limitation of time, conditions and qualifications contained in the Order, apply to the ships of the said foreign country, whether within British jurisdiction or not, and that such ships shall, for the purpose of such regulations, he treated as if they were British ships:

And whereas by section 434 of the said Act His Majesty is empowered from time to time by Order in Council to make rules as to signals of distress:

And whereas by section 734 of the said Act it is provided that where it has been made to appear to His Majesty that the Government of any foreign country is desirous that any of the provisions of that Act which do not apply to the ships of that country, should so apply, and there are no special provisions in the Act for that application, His Majesty in Council may order that such of those provisions as are in the Order specified shall (subject to the limitations, if any, contained therein) apply to the ships of that country, and to the owners, masters, seamen, and apprentices of those ships, when not locally within the Jurisdiction of the government of that country, in the same manner in all respects as if those ships were British ships:

And whereas by section 738 of the said Act it is provided that where His Majesty has power under that Act or any Act amending the same, to make an Order in Council His Majesty may from time to time make that Order in Council and by Order in Council revoke alter or add to any Order so made:

And whereas by the said lag mentioned section it is further provided that subject to any special provisions of that Act upon the publication of any such Order the Order shall as from the date of its publication or any later date mentioned in the Order take effect as if it were enacted by Parliament:

And whereas by an Order in Council dated the 27th day of November, 1896, regulations for preventing collisions at sea and as to distress signals were made as regards British ships and boats, and by a subsequent Order dated the 7th day of July, 1897, these regula-tions were extended, subject to the limita-tions stated in the Order, to the ships of the several countries specified in Schedule III to the last mentioned Order:

And whereas by Orders in Council dated respectively. the 18th day of August, 1892, the 7th day of July, 1897, and the 4th day of April, 1906, other regulations for the prevention of collisions were made as regards British ships:

And whereas it is expedient to consolidate e regulations which have been made as the regulations which

regards British ships:

And whereas it has been made to appear to His Majesty that the Governments of the several countries mentioned in Schedule II hereto annexed are willing that the regulations and rules contained in Schedule I, should, subject to the qualifications mentioned in the aforesaid Schedule I, and to the proviso in the case of Chinese ships that the application of the regulations and rules shall be limited to ships of foreign type, apply to the ships of those countries when beyond the limits of British jurisdiction:

And whereas the provisions of section one of the Rules Publication Act, 1893, have been

complied with:

Now therefore His Majesty, by virtue of the powers conferred on Him by the aforesaid Act, and on the joint recommendation of the Admiralty and the Board of Trade, and by and with the advice of His Privy Council, is pleased to direct that the collision regulations and the rules as to signals of distress contained in Schedule I to this Order shall apply to all British ships:

And His Majesty is also pleased to direct that the said regulations and rules shall, subject to the aforesaid qualifications and to the proviso in the case of Chinese ships that the regulations and rules will be applicable only to ships of foreign type, apply to the ships of the countries named in Schedule II, to this Order whether they are within British jurisdiction or not, and that such ships shall, for the purpose of such regulations and rules be treated as if they were British ships:

And His Majesty is further pleased to direct that this Order shall come into operation on and after the 13th day of October, 1910, and that as and from the coming into operation of this Order the Orders in Council specified in Schedule III, to this Order shall be revoked and the same shall be revoked accordingly.

#### ALMERIC FITZROY.

#### SCHEDULE I.

# Preliminary.

These rules shall be followed by all vessels upon the high seas and in all waters connected therewith navigable by sea-going vessels.

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The words "steam vessel" shall include any

vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when she is not at anchor, or made fast to the shore aground.

#### Rules concerning lights, etc.

The word "visible" in these rules, when applied to lights, shall mean visible on a dark

night with a clear atmosphere.

Article 1. The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2. A steam vessel when under way

shall carry-

(a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(c) On the port side a red light so constructed as to show an unbroken light over an are of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(d) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow

(c) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. A steam vessel when towing another vessel shall, in addition to her sidelights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position

as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or after mast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (a) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can best be seen, and, if a steam vessel, in lieu of that light. two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each ∠ feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessels referred to in this Article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such sig-

nals are contained in Article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they

shall never carry.

Article 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready, for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respeclive sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (a), (b) and (c), but if they do not carry them they shall be provided with the following lights:—

Steam vessels of less than 40 tons shall

carry:

(a) In the fore part of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a dis-

ance of at least 2 miles.

(b) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) and (c) and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white

Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision (1) (b).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a), and Article 11, last paragraph.
Article 8. Pilot-vessels, when engaged on

their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead\_visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel toput a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above-mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot

boats, carry at a distance of 8 feet below her white musthend light a red light visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured

side-lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their ton-

nage.

Article 9.\*† . Fishing-vessels and fishingboats, when under way and when not required by this Article to carry or show the lights hereinafter specified shall carry or show the lights prescribed for vessels of their tonnage under way

(a) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats, when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying

tackle is attached.
(b)‡ Vessels and boats, except open boats as defined in subdivision (a), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and onot more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

With the Mediterranean Sea and in the seas bordering the costs of Japan and Koreas sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

This article does not apply to Chinese or Siamese

(c) Vessels and boats, except open boats as defined in subdivision (a), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (h), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or fishing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea § sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile on the approach of or to other vessels.

- (d) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea-
- If steam vessels, shall carry in the same position as the white light mentioned in Article 2 (a) a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.
- If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.
- All lights mentioned in subdivision (d) 1 and 2 shall be visible at a distance of at least 2 miles.
- (c) Oyster dredgers and other vessels fishing with dredgenets shall carry and show the same lights as trawlers.
- (f) Fishing-vessels and fishing-hoats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.
- (g) Every fishing-vessel and every fishingboat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.
  - Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

<sup>†</sup> The expression "Moditerranean Sea" contained in sub-sections (b) and (c) of this Article includes the Black Sea and the other adjacent inland seas in communication

<sup>†</sup> Dutch vessels and boats when engaged in the "kol" or hand-line, fishing will carry the lights prescribed for vessels fishing with drift-nets.

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

<sup>§</sup> Also, as regards Russian vessels, in the seas (excluding the Baltie) bordering the coasts of Russia.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(h) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (k); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [See subdivision (d), and the last paragraph of Article 15.]

(i) In fog, mist, falling snow, or heavy rainstorms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of drag-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute make a blast; if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but if they do not,

nal at intervals of not more than one minute. (k) All vessels or boats fishing with nets or lines or trawls, when under way, shall in day-time indicate their occupation to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which

they shall make some other efficient sound sig-

those vessels can pass.

The vessels required by this Article to carry or show the lights herein-before specified shall not be obliged to carry the lights prescribed by Article 4 (a), and the last paragraph of Article 11.

Article 10. A vessel which is being over-taken by another shall show from her stern to such last-mentioned vessel a white light or a

flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of

registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red

lights prescribed by Article 4 (a).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a dis-

tress signal.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in

diameter.

# Sound-Signals for fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given:
1. By "steam vessels" on the whistle or

siren.

2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article, shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be . sounded by mechanical means, and also with an efficient bell.\* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow, or heavy rainstorms, whether by day or night, the signals described in this Article shall be used as

follows, viz.:

(a) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(b) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two pro-longed blasts, with an interval of about 1 second between them.

(c) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when

<sup>\*</sup>Ing all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small seagoing vessels.

with the wind abaft the beam three blasts in succession.

(d) A vessel, when at anchor, shall, at inervals of not more than 1 minute, ring the

bell rapidly for about 5 seconds.

(c) A vessel, when towing, a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules shall, instead of the signals prescribed in subdivisions (a) and (c) of this Article, at intervals of not more than two minutes, sound three blasts in succession, viz.:—

one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound signal at intervals of not more than 1 minute.\*

Specd of Ships to be moderate in fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

Steering and Sailing Rules.

# Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the

way of the other, as follows, viz.:-

(a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(c) When both are running free, with the wind on different sides, the yessel which has the wind on the port side shalf keep out of the way of the other.

(d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to less ard.

sel which is to less ard.

(c) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19. When two steam vessels arecrossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by way of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.-When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22. Every vessel which is directed

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vesselfrom any direction more than two points abaft her beam, i.e., in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

<sup>\*</sup>Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain-storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fair-way or mid-channel which lies on the starboard side of such

vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or hoats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fair-way used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Birbhum.—No. 1712L.A.—6th February 1930.—The Governor in Council is pleased to cancel the notification No. 4033L.A., dated the 17th March 1928, published under section 4 of the Land Acquisition Act, I of 1894, at pages 575-576, Part I of the Calcutta Gazette of the 22nd idem, in respect of the acquisition of land required for the distributary No. I of the Bakreswar canal in the village of Rajchandrapur, pargana Jainujial, zilla Birbhum.

• 1930.—The following agreement is published under section 42 of the Land Acquisition Act, 1 of 1894, for general information.

H. J. TWYNAM, Secy. to the Govt. of Benyal.

#### Agreement.

Memorandum of Agreement made this sixth day of February one thousand nine hundred and thirty between the Calcutta Electric Supply Corporation, Limited, a Company registered under the English Companies Act and having its registered office at 3 and 4, Clements Inn, Strand, in the County of London in England, and having a branch office at 6, Old Post Office Street, Calcutta (hereinafter called "the Company"), of the one part and the Secretary of State for India in Council (hereinafter called "the Secretary of State") of the other part.

Whereas for the purpose of the construction of a Distributing Sub-Station for the supply of electrical energy at Cossipore the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or

parcel of land containing 0.1622 of an acre or thereabouts, comprised in the premises bearing municipal Nos. 26/1 and 26/2, Barrackpore Trunk Road, in the district of 24-Parganas, more particularly described in the Schedule hereto and delineated in the plan\* hereunto annexed.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And 'whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the Agreement with the Secretary of State hereinafter contained.

Now this indenture witnesseth that it is hereby agreed and declared as follows:—

- 1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.
- 2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purpose mentioned in the last preceding clause.
- 3. On payment by the Company of all demands under the foregoing first clause or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purpose of such supply of electrical energy as is hereinbefore mentioned and purposes incidental thereto and without the sanction in writing of the said Government of Bengal first had and obtained for no other pur-

pose whatsoever.

5. The necessary buildings and plant for the said supply of electrical energy shall be completed (and fully equipped in all respects ready for use) within two years from the date on which possession of the said land shall have been given to the Company.

<sup>\*</sup> Not printed herowith, but may be inspected in the office of the Second Land Acquisition Collector at No. 5, Bankshall Street, Calcutta.

6. Should the said Distributing Station not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of six consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the fore-going fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land, together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Company, and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(i) Should the said Government sell the land with the buildings the said Government after deducting the expense incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Com-

pany.

(ii) Should the said Government decide not to sell the land and buildings the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Company the market value as on the day of re-entry of all buildings erected by the Company and all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sums paid and received on account of costs, charges and expenses.

(iii) Should the said Government decide to sell the buildings only upon such sale, the Secretary of State after deducting the expenses of taking possession and selling, shall pay the balance of the proceeds of sale to the Company, together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and

expenses.

8. The public shall be entitled to the use of the said land on the following terms, that is to say, subject to the provisions of the Indian Electricity Act, 1910, and rules made thereunder, or to the provisions of any other legiss lative enactment or rules in that behalf for the time being in force the public in the vicinity of the said Distributing Sub-Station (when completed) shall be entitled to be supplied with electrical energy from such Station within the limits of the power available at such Station and in pursuance of the terms of the electrical license granted to the Company

the electrical license granted to the Company.

9. Should any dispute or difference arise touching or concerning the subject matter of this Agreement or any covenant clause or

thing herein contained the same shall be refered to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

In witness whereof the duly constituted attorneys of the Company and the Secretary of State for India in Council acting through the Government of Bengal have hereunto set their respective hands and seals the day and year first above written.

No. 3164A.-12th February 1930.—The following is substituted for Appendix IX to the Departmental Examination Rules:—

#### APPENDIX IX.

# Rules for the Training of Assistant Magistrates, Deputy Magistrates and Sub-Deputy Magistrates.

1. As soon as any junior officer to whom these rules apply is posted to his district, the District Officer should prepare a programme showing, with reference to the work in his office, the periods which the junior officer will spend in the several departments. Each junior officer should receive a copy of the programme of his work, and the programmes should be entered in a register.

(Bengal Government, Appointment Department, Notification No. 2931A., dated the 1st May 1917.)

2. Officers of the Bengal Civil Service (Executive) and the Bengal Junior Civil Service will be on probation for a minimum period of two years after appointment. During this time they should be trained so as to get as much experience as possible in Magisterial and Revenue Courts with a view to their acquiring a knowledge of official routine. They should also study the Codes and the Acts to enable them to go up for their departmental examinations. They will be allowed to appear for the Lower Standard at the first half-yearly examination held after their appointment; and in no case will an officer be confirmed until he has passed these examinations completely by the Higher Standard.

(Bengal Government, Appointment Department, Notification No. 2411A., dated the 9th March 1923.)

3. Assistant Magistrates and Deputy Magistrates undergoing a course of training, who are allowed, under rule 2 to appear at any departmental examination, are under this rule required to prepare an intelligent and precise record of six cases tried by first class Magistrates and of three defended Sessions trials.

The cases to be recorded will be selected for the purpose by the District Magistrate or by such Magistrate as may be deputed by him to select the cases: appellate cases will not be included.

The officer preparing the record must prepare it from notes taken by himself in Court as the trial proceeds. He must ordinarily be present in Court throughout the trial of the case which he is reporting, and he should not see the depositions recorded by the Magistrate. But if he is unavoidably absent from a small part of the hearing, the Magistrate may show him the portion of the record which he has missed.

The Magistrate will show him the judgment which he may read and from which he may take notes, but he must write in his own language a judgment fulfilling the conditions of section 367 of the Criminal Procedure Code.

It is not necessary that the notes of the statements of witnesses should contain everything which is recorded by the Magistrate, but they must contain an intelligible narrative and all important points must be brought out. When two or more witnesses repeat the same story, the examination-in-chief of all of them need not be fully noted, but the record must show the points of difference.

The Magistrate trying the case, or, in Sessions cases, the Public Prosecutor, should give to the officer preparing the record a certificate of his constant attendance throughout the hearing. If he has been unavoidably absent from part of the hearing, the certificate should show for what part he was absent.

The record should consist of-

- (i) a summary of the evidence, with notes on it, showing its admissibility and applicability to the offence charged;
- (ii) notes on the procedure with references to the Codes, e.g., to such matters as the rules as to cross-examinations, reexamination, drawing up of charge and taking the statement of the accused;
- (iii) a précis of the arguments adduced for the prosecution and the defence, and, in the case of Sessions trials, a précis of the Judge's charge to the jury.

It should be understood that value will be given to notes intelligently based on annotated editions of the Criminal Procedure Code, Penal Code, and Evidence Act.

Sub-Deputy Magistrates under training will prepare a record on the above lines, mutatis mutandis, of six cases tried by first class Magistrates.

(Bengal Government, Appointment Department, Notification No. 559A., dated the 7th January 1924.)

- 4. The District Magistrate will forward these records to the Legal Remembrancer, who will, at any time before the date fixed for the departmental examination, send a statement of his opinion thereon to the Central Examination Committee for consideration and submission to Government with the result of each half-yearly examination. The District Magistrate should keep himself informed of the progress which is made in the preparation of these records so as to ensure that they are punctually submitted, and should examine the first record of each officer to see that it has been prepared on the right lines. The records referred to in this rule must be prepared and submitted to the Legal Remembrancer within twelve months of an officer's joining his first appointment unless for any special reason Government grant an extension of this period.
- 5. If, in the opinion of the Legal Remembrancer, an officer has once prepared the record satisfactorily, he will not be required to do so again, even although he may not be adjudged to have passed in Law
- 6. (1) Assistant Magistrates should attend the court of a selected first class Magistrate (preferably the Sadar Subdivisional Magistrate) for a week, and thereafter should be given simple cases to try.
- (2) Probationary Deputy and Sub-Deputy Magistrates, during the period of their training in the Magisterial Department should attend the court of a first class Magistrate, selected by the District Magistrate, during the trial of criminal cases.
- 7. Junior officers may be deputed for miscellaneous enquiries in regard to criminal cases when the inspection of a locality or other matter is important, and they may be examined in Court as to their reports. They may also be deputed to conduct specific enquiries in chaukidari matters and to preside at the payment of chaukidars; before doing this they should make themselves thoroughly acquainted with the rules. For a period not usually exceeding one month, they may be placed in subordinate charge of the Chaukidari Department in order to learn the office procedure. They should also study the miscellaneous work of the Magistrate's office. Members of the Bengal Junior Civil Service should also be given at least one month's training in the work of a circle officer by being deputed for training to different circles, during which period they will be instructed in the work of checking assessment lists, performing annual audits, and in the other duties of a circle officer.
- 8. All junior officers are required to undergo a training in treasury work, and for that purpose should be placed in charge of the district treasury, under the general supervision of the Deputy Collector ordinarily in charge, for a period of not less than six weeks continuously, and must obtain a certificate from the Collector to the effect that they have duly attended to and satisfactorily discharged the duties of Treasury Officer for the prescribed period.
- 9. Probationers should not be required to work as clerks, or to write up registers; they should, however, prepare notes or précis of cases and draft letters. They should see all the papers which go up to the Deputy Collector, and the Deputy Collector should utilise their services in any way that he can in connection with the cases. The Deputy Collector should, at the same time, see that the probationer makes himself acquainted with the law and rules on the subject, and should from time to time require him to prepare a note explaining the procedure or the reason for any action taken in a particular case. In departments the work of which involves the keeping of accounts or registers, probationers should check and initial entries made in registers, check the accounts and examine the preparation of returns. They should attend inspections by the gazetted officers in charge of departments and by the Collector, and should assist during those inspections.
- 10. At the end of a probationer's period of training in any department, the Deputy Magistrate or Deputy Collector in charge of the department should record a note in the register referred to in rule 1,

stating how the probationer has attended to his duties and a general opinion of his industry and ability. This should be shown to the District Officer who should personally interview each probationer at least once a month and ascertain by oral examination of each probationer whether he has acquired a reasonable amount of information about the working of the departments in which he has been under training. If such examination shows that any probationer is insufficiently acquainted with the working of any department, he should be sent back for a further period or further periods of training in that department until his knowledge of its working is adequate, and the programme of work referred to in rule 1 should be modified accordingly. An officer in charge of a department must realise that he is held personally responsible for seeing that probationers under training are given every opportunity of becoming fully acquainted with the working of the department and make full use of their opportunities.

- 11. Probationers should keep a diary and record briefly the work done by them day by day. The diary should be submitted to the Deputy Collector under whom they are working for the time, and should be seen by the Collector.
- Junior officers should not take up survey and settlement work before they are deputed to the annual training camp. The rules for the regulation of this camp are contained in the Survey and Settlement Manual
- 13. The programme prepared under rule 1 should make provision for short periods to be spent in learning the nature of the work which is done in the following departments:-
  - (1) Tauzi,

  - (2) Cess, (3) Record-room,
  - (4) Land Registration,
  - (5) English office,
  - (6) Munshikhana,
  - (7) Certificates,
  - (8) Partition,

  - (9) Nazarat, (10) Income-tax and
  - (11) Land Acquisition;

and junior officers should be required to study the manuals concerned while they are engaged in those departments.

All junior officers should be put in charge for a short period of the Copying Department of the Collectorate Record-room.

They should be required to make themselves thoroughly acquainted with the rules for inspecting the accounts of Government estates and, in districts in which there are suitable estates, to inspect accounts according to the rules and to check arrear lists under the supervision of the Khas Mahal Deputy Collector.

In the case of Ward's estates of which the accounts are sent to headquarters for audit, their services may be utilised for short periods in assisting to audit the accounts.

Touring.—The District Officer should occasionally take junior Assistant Magistrates with him on his tours, but not for such long periods as will interfere with their preparation for the departmental examinations. During these tours the District Officer will find opportunities for instructing them in the several branches of the administration of a district.

Junior officers should not ordinarily be sent out on tour for long periods, but their services may with advantage be utilised for distributing and collecting agricultural loans, for making local enquiries in probate cases, for assisting the Land Acquisition Deputy Collector in making local payments, for enquiries about agricultural calamities, and for inspecting accounts in Government estates.

15. Agriculture.—All junior officers should make themselves familiar with the appearance and the names of local crops, as well as of the times of sowing and harvesting. They should also, as far as possible, study the elements of agriculture in the works on agriculture, both general and Indian, which will be found in the district libraries.

No. 396M.—13th February 1930.—The following draft bye-laws have been framed by the district board of Malda under section 139 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), as amended by Act I of 1914. It is proposed to confirm the said bye-laws under clause (2) of the said section and they are published for the information of persons likely to be affected thereby.

2. The draft bye-laws will be taken into consideration on the 15th May 1930 and any objections or suggestions received by the undersigned through the Magistrate of the district before that date will be duly considered.

# • Draft byc-laws.

Definition.—"Motor Vehicles" excludes motor cycle, road-roller or vehicle which runs on rails.

- (a) No person shall drive over any road or bridge a vehicle whose weight when unladen exceeds the weight prescribed by the district board as the maximum weight of a vehicle that may be driven over such road or bridge or at a speed greater than the maximum speed prescribed by the district board for such road or bridge.
- (b) No person shall drive a motor vehicle over any road or bridge which has been closed to motor traffic by order of the district board with the sanction of the Commissioner.
- (c) No motor vehicle shall run on any road unless the tyres of the wheels are pneumatic:

Provided that this bye-law shall not apply to motor vehicles which—were in use with solid tyres, on 1st May 1929 and which were specially exempted by the board.

(d) Any breach of any of the above byelaws shall be punished with a fine which may extend to Rs. 50. A continuing breach shall be punished with a further fine which may extend to Rs. 5 for every day during which the breach is continued after the offender has been convicted of such breach.

### NOTIFICATION.

New Delhi, the 6th February 1930.

No. M.-1217.—The following draft of a further amendment to the Indian Explosives Rules, 1914, which it is proposed to make in exercise of the powers conferred by clause (c) of sub-section (2) of section 5 of the Indian Explosives Act, 1884 (IV of 1884), is published as required by section 18 of the said Act, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 8th May 1930. Any objection or suggestion which may be received in respect of the said draft before the date specified will be considered by the Governor General in Council:—

### Draft Amendment:

After Chapter V of the said Rules the following Chapter shall be inserted, namely—

### " CHAPTER V-A."

### FACTORIES.

37-A. Procedure in applying for a license under Article 10 of Schedule II.—(1) An applicant for a license under Article 10 of Schedule II to manufacture any explosive in any quantity shall submit to the District Authority an application in writing, which shall be accompanied by—

(a) a site plan, drawn to scale, of the proposed factory and its surroundings showing-

(i) the distances between buildings forming part of the factory, and

(ii) the distances between the factory or any part thereof and other buildings and works;

(b) construction plans of each building in the factory with particulars of construction.

- (2) The application shall also specify-
- (a) the nature of the process or processes to be carried on in the factory and in each part thereof;
- (b) the maximum quantity of explosive to be manufactured during the period for which the license is granted;
- (c) the maximum quantity of explosive to be possessed at any one time in the factory as a whole; this amount shall include wholly as well as partly mixed ingredients;
- (d) the maximum number of persons to be employed in each building in the factory;
- (e) the manner in which it is proposed to store the ingredients.
- 37-B. Issue of notices, inquiry into objections, etc.—On receipt of an application under rule 37-A the District Authority shall follow the procedure prescribed by rules 39 to 42 so far as it is applicable.
- 37-C. Report on completion of inquiry.—
  On completion of the inquiry prescribed by rule 42 the District Authority shall forward the application and the plans to the Chief Inspector of Explosives together with a report stating whether he—
- (a) disapproves of the proposed site for the factory;
- (b) approves of the proposed site either unconditionally or subject to any such restrictions or precautions as he considers necessary;
- (c) has any objection to the manufacture of the explosive in question in his District.
- 37-D. Procedure to be observed by the Chief Inspector of Explosives on receipt of the report.—The Chief Inspector of Explosives shall scrutinise the plans and forward to the applicant a statement showing the distances which should, in his opinion, be kept clear between the factory or any part thereof and other buildings and works. On receipt of the statement the applicant shall enter therein against each item the exact distance which can actually be so kept clear, shall sign the statement and shall return it together with any representation which he may desire to make to the Chief Inspector of Explosives.
- 37-E. Submission of the application to the licensing authority through the Local Covernment—After considering any representation made by the applicant when returning the statement, the Chief Inspector of Explosives shall submit the application to the Local Government with his recommendation. If he recommends the grant of a license, he shall submit a draft license containing the conditions which he considers suitable. The Local Government shall forward the application and draft license to the Governor General in Council with its recommendation thereon.
- 37-F. Grant of license.—The Governor General in Council may grant a license either in the form of the draft forwarded under rule 37-E or with such modifications or restrictions as he may consider suitable, or may reject the application.

- 37-G. Procedure on grant of license.—A copy of each license granted shall be forwarded to the Chief Inspector of Explosives and the license itself shall be forwarded to the Local Government, who shall forward it to the District Authority.
- 37-II. Endorsement of license. The District Authority when satisfied that the applicant has complied with all the conditions prescribed in the license, shall forthwith endorse the license, and unless and until so endorsed the license shall not come into force.

If it is decided not to endorse the license, the District Authority shall forthwith inform the Chief' Inspector of Explosives and the Local Government, and the Local Government shall intimate the fact to the Governor General in Council."

No. 537L.—12th February, 1930.—The following Report of the Select Committee on

the Bengal Tenancy (Amendment) Bill, 1930, with the Bill as amended by the Committee, is hereby published for general information:—

## Report of the Select Committee on the Bengal Tenancy (Amendment) Bill, 1930.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Tenancy (Amendment) Bill, 1929, was referred by a motion carried on the 6th February, 1930, have the honour to submit this our report with a copy of the Bill as amended by us annexed. The changes in the Bill are indicated by underlining.

- 1. The Bill was published in English in the Calcutta Gazette on the 10th October, 1929.
- 2. The Committee considered the Bill at a meeting on Saturday, the 8th February, 1930.
  - 3. The Bill has not been so altered as to require republication.
- 4. The Committee recommend that the Bill as amended be passed by the Council.
  - 5. The following are the principal changes made in the Bill:—

Clause 11.—The Committee considered that the reference to the Permanent Settlement is not entirely suitable. They are of opinion that protected interests may be appropriately conferred on raivats who pay rent at the same rate for a period of twenty years.

Clause 12.—The reference to section 174 has been made more specific.

Clause 13A.—This new clause removes a technical defect by giving the correct reference.

Clause 15.—In sub-clause (b) reference has been made to both sub-headings.

- 2. In section 4 of the Transfer of Property (Amendment) Act, XX of 1929,—
- (i) in Explanation I, for the words "if the instrument has been registered under sub-section (2) of section 30 of the Indian Registration Act, 1908, from the earliest date on which a memorandum thereof XVI of has been filed by any Sub-Registrar under section 66 of that Act" the of 1908, following words shall be substituted, namely:—
  - "where the property is not all situated in one sub-district, or where the registered instrument has been registered under sub-section (2) of section 30 of the Indian Registration Act, 1908, from the earliest date on which any memorandum of such registered instrument has been filed by any Sub-Registrar within whose sub-district any part of the property which is being acquired, or of the property wherein a share or interest is being acquired, is situated" and
- (ii) in proviso (2) to Explanation I, after the word "instrument" the words "or memorandum" shall be inserted.

### STATEMENT OF OBJECTS AND REASONS.

The formal amendments contained in this Bill are designed to carry out the intentions of Explanation I contained in section 4 of the Transfer of Property (Amendment) Act, 1929. The difficulties sought to be met by the latter part of the body of the Explanation are not confined to cases where registration is effected under sub-section (2) of section 30 of the Indian Registration Act, 1908, but they are also encountered when an instrument relating to scattered properties is registered in the ordinary manner. Further, it is possible, under the present Explanation, that a subsequent transferee may make a genuine search in the offices of all the sub-districts in which the property he seeks to acquire is situated,

and find no record of a transfer; but may still find himself saddled with notice of a transfer by reason of a memorandum relating to some other property, included in a previous transfer along with the property he is interested in, having been filed in some distant sub-district. The Bill is intended to remove these ano-

malies.

### **GOVERNMENT OF INDIA.**

### Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930.—

L. A. Bill No. 2 of 1930.

A Bill further to amend the Indian Railways Act, 1890.

Whereas it is expedient to amend the law relating to Railways in India; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Railways (Amendment) Act,

Amendment of section 42, Act. IX of 1890.

2. In section 42 of the Indian Railways Act 1890, after sub-section IX of (2) the following Explanation shall be inserted, namely:—

1890.

"Explanation.—For the purposes of this sub-section reservation of any compartment in a railway train for the exclusive use of any particular community, race or creed shall be deemed to be undue preference."

### STATEMENT OF OBJECTS AND REASONS.

This amending Bill is intended to prohibit reservation of compartments in Railway trains for the exclusive use of persons belonging to any particular community, race or creed. In certain prosecutions under section 109 of the Indian Railways Act, 1890 (IX of 1890), the point at issue was whether such reservation amounted to undue preference within the meaning of section 42. The High Courts have variously interpreted section 42 in these cases, while agreeing that such reservation is not ultra vires. The present amendment will place the matter beyond doubt and bring the law into line with public opinion.

2. The Bill was originally introduced by Mr. K. C. Neogy in September, 1924, in the Legislative Assembly and passed on 30th January, 1925. But it was negatived in the Council of State on 26th February, 1925.

### COVERNMENT OF INDIA.

### Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930:-

### L. A. Bill No. 3 of 1930.

A Bill to provide for treating offenders under the Child Marriage Restraint Act, 1928, as first offenders and enlarging the scope of the discretionary powers under section 562 of the Code of Criminal Procedure, 1898.

Whereas it is expedient to amend the Code of Criminal Procedure, **v** of 1898. 1898, for the purpose of extending the list of offences to be dealt with and enlarging the scope of the discretionary powers under section 562 of the said Act; It is hereby enacted as follows:-

Short title, extent and commencement.

- 1. (1) This Act may be called the Code of Criminal Procedure (Amendment) Act, 193
- (2) It shall extend to the whole of British India including British Baluchistan and Sonthal Parganas.
  - (3) It shall come into force on the 1st day of April, 1930.

Amendment of section 562. Act V of 1898.

- 2. In sub-section (1A) of section 562 of the Code of Criminal V of 1898. Procedure, 1898,-
  - (a) after the words "in which a person is convicted" the words and figures "of offences punishable under sections 3, 4, 5 or 6 of the Child Marriage Restraint Act, 1928, or" shall XIX of

- (b) after the words "physical or mental condition" the words "or moral or religious belief" shall be inserted; and
- (c) between the words "trivial" and "nature" the words "or technical" shall be inserted.

### STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to enable the Magistrate empowered to try cases under the Child Marriage Restraint Act, 1928, to freat the accused as first offender and release him with admonition, it he finds that the circumstances under which the offence is committed justify the use of the discretionary powers under sec-

tion 562 of the Criminal Procedure Code.

This Bill will render the Child Marriage Restraint Act more educative than penal. It is obvious that in contracting child marriages in defiance of the provisions of the Child Marriage Restraint Act, some of the offenders will be found actuated by the motive to respect their religious belief or customary usages. They are not offences which involve any danger to the State, public tranquillity or any kind of moral turpitude on his part. They are in my opinion just the kind of offences in which the offenders deserve the lenient treatment.

The Age of Consent Committee have, in paragraphs 282 and 283 of their Report, observed that there may be cases of husbands convicted of the offence of marital mis-behaviour when the Court can, in its discretion, treat the accused as first offender. In fact this was the principle that mainly guided them in prescribing the period of im-prisonment for both kinds of offences of

marital misbeltaviour. The authors of the Report are unanimous in maintaining that-

It will be in the fitness of things, that the Judges should have the discretion in suitable cases to give the accused the benefit of section 562 of the Criminal Procedure Code.

It is needless to add that what has been written in the Report regarding the commission of offences of marital misbehaviour by boys between 14 and 18 is equally true of offences under the Child Marriage Restraint Act by boys above 18 and even 21.

It is true that the Committee have not made any specific recommendation for the amendment of section 562 of the Criminal Procedure Code so as to include therein offences against the law of marriage. But the authors of the Report in paragraph 318 have clearly stated their reasons for the omission to consider detailed suggestions in regard to the law of marriage. The report observes:

"We have had various suggestions made regarding the law of marriage. The question of the law of marriage is not directly before us............. We do not propose to consider detailed suggestions with reference to that law."

Sub-section (1) of section 562 enables the Magistrate to treat the offenders under the Child Marriage Restraint Act as first offenders. But it is compulsory on the Magistrate to call upon the accused to execute a bond for a period not exceeding three years.

Ι.

Besides it appears from the language of the section that it is intended to provide for certain classes of offences which relate to breach of peace or some kind of improper conduct. A bond in terms of sub-section (1) of section 562 from an offender under the Child Marriage Restraint Act will in many cases have no meaning and for that very reason the Magistrates may be reasonably disinclined to give the benefit of that sub-section to these offenders. The proper remedy, therefore, is to enlarge the scope of sub-section (2) and invest the Magistrate with the discretion of releasing the offender on admonition.

The Bill also aims at widening the range of the grounds which the Magistrate can take

into consideration.

Hitherto there was no express provision enabling the Magistrates to treat tious objectors as first offenders, whether moral

or religious belief is comprised within the meaning of the term "physical or mental condition" or not is a question not altogether free from doubt. The amendments proposed in clause 2 (b) and (c) will leave no ambiguity. So also the addition of the word "technical" after the word "trivial" is intended to give greater latitude to the Magistrates in

give greater latitude to the Magistrates in the use of the powers vested under sub-section (1A) of section 562.

### COVERNMENT OF INDIA.

### Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930:—

### L. A. BILL No. 4 or 1930.

A Bill to penalise the use of pictures of gods and goddesses, scenes from scriptures or mythology of any religion what-soever as marks or trade-marks on any article imported to or manufactured in India.

Whereas it is expedient to penalise the use of pictures of gods and goddesses, scenes from scriptures or mythology of any religion whatsoever as marks or trade-marks on any article imported into or manufactured in India; It is hereby enacted as follows:—

Short title, extent and commencement.

- 1. (1) This Act may be called the Indian Religious Pictures Trade Marks (Prevention) Act, 19.
  - (2) It extends to the whole of British India.
  - (3) It shall come into force on the first day of April, 19

Punishment for importing or manufacturing goods with trade-marks of pictures of gods and goddesses, etc. 2. Any person from whom a customs duty is levied in any place in British India for importing any article or the manufacture in India of any articles whatsoever shall be punished with a fine not exceeding five hundred supees if the articles so imported or manufactured bear on them picture of gods, goddesses, scenes from scriptures or mythology of any religion whatsoever, as marks or trade-marks.

### STATEMENT OF OBJECTS AND REASONS.

Many articles imported from foreign countries or manufactured in British India bear on them the stamp or picture of Hindu gods and goddesses, scenes from scriptures or mythology, as marks or trade-marks. It is repugnant to religious sentiments that they should be so used and profaned by coming into contact with everyday humdrum commercial Mfe. Respect for Hindu sentiments demands that the pictures of gods and goddesses, and the scenes from scriptures and mythology should not be used as marks or trade-marks on any article sold in the market. In like man-

ner, it is proposed to provide that pictures from life of Buddha, the Koran, the Bible should not be used as marks or trade-marks on any article sold in the market. The object of this Bill is to penalise all such imports and manufactures so as to prevent the abuse that has grown up within recent years.

Commercialisation of religious sentiments is anti-Indian in tradition, and culture and sentiment.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

# GOVERNMENT OF BENGAL. Legislative Department.

NOTIFICATION.

No. 718L.-25th February 1930.- In pursuance of the provision of rule 20 of the

Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 7th February 1930, is hereby published for general information, together with the Statement of Objects and Reasons, annexed thereto:—

# THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1930.

# A

# BILL

to amend the Bengal Village Self-Government Act, 1919.

Whereas it is expedient to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing;

It is hereby enacted as follows:---

- 1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1930.
- 2. In section 12, clause 1(a) after the word "offence" the following shall be inserted "involving moral turpitude."
  - 3. For section 19, the following shall be substituted:—
- "19. All roads, not being roads maintained by the District Board, drains including the subsoil thereof, tube-wells, reserved tanks, buildings and other works constructed by a Union Board, shall vest in the Union Board."
  - 4. For section 20, the following shall be substituted :- -
- "20. (1) Whenever a vacancy occurs, the Union Board shall appoint a suitable person to be a dafadar or chaukidar under this Act, and submit the names of such persons to the District Magistrate.
  - (2) The Union Board may dismiss any dafadar or chaukidar.
- (3) If the person appointed be a habitual criminal or a member of any criminal tribe or one who has been convicted of any offence, the District Magistrate may veto such appointment after recording his reasons for so doing in writing.
- (4) On the District Magistrate vetoing any appointment, copy of the order and the reasons therefor, shall be sent to the Union Board. The Union Board shall within a month of the receipt of the District Magistrate's order, fill up the vacancy by appointing another man to the post:

Provided that if the Union Board fails to appoint a dafadar or chaukidar within a month of the post falling vacant, the District Magistrate may appoint a man to fill up the vacancy."

- 5. In section 21, sub-clause (1) the words "by the District Magistrate after consideration of the views of the Union Board" shall be omitted and the following be substituted therefor:—:
- "by the Union Board: Provided that in any case in which the District Magistrate is of opinion that either the number, or the salary or the equipment determined by the Union Board is insufficient, he may for reasons to be recorded in writing request the Union Board to increase the same. Upon receipt of the District Magistrate's views, the Union Board may make further representation on the subject, and subject to any modification made by the District Magistrate of his previous orders on such representation, the Union Board shall increase the number, or salary and alter the nature and cost of equipment as requested by the District Magistrate."
- 6. In section 22, all the words after the words "shall be liable to be punished" shall be omitted and the following shall be substituted therefor "by the Union Board with fine, provided that the fine shall not be in excess of a month's salary."
- 7. In section 25, for the words "the District Magistrate" the words "the District Board" shall be substituted.

The Bengal Village Self-Government (Amendment) Bill. 1930.

#### (Clauses 8--13.)

- 8. In section 26 after clause (b) the following clause shall be added:—
- "(bb) shall provide as far as possible for the repairs of all roads within the Union, not being roads maintained by the District Board."

### (Clauses 14-23.)

- 37C. (1) It shall also be lawful for the Union Boards to levy a tax or toll on all wheeled vehicles using roads vested in the Board and to prescribe rates for different kinds of vehicles: Provided that no such tax or toll shall be levied unless the proposal for levy thereof and the rate thereof have been accepted at a meeting specially convened for the purpose by the vote of at least two-thirds of the total number of members of the Board and unless the said proposal and rate have been approved of by the District Board.
- (2) The money realised by levy of tax or toll under section 37C, shall be spent only in the repair, improvement and widening of roads."
- 14. For Chapter V whenever the words "section 37" occur they shall be omitted and the words "section 37B" shall be substituted.
- 15. In section 45 in the proviso for the words "clause , (b)" the words "clause (d)" shall be substituted.
- **16.** In section 46 clause (1) shall be omitted and the number (2) before clause (2) shall also be omitted.
- 17. In Schedule III items 1 and 2 shall be omitted and items 3, 4 and 5 shall be renumbered 1, 2 and 3.
- 18. In section 48(1) for the words "Local Board" the words "District Board" shall be substituted. Clause (2) of section 48 shall be omitted.
  - 19. For section 50 the following shall be substituted:
- "50. The District Board shall superintend the administration of Union Boards within the district, except in matters relating to chaukidars and dafadars."
- 20. In section 51, clause (1) shall be omitted, the number (2) shall also be omitted and after the word "proceeding" in clause (2) the words "of any Union Board" shall be inserted.
- 21. In section 52, the words "or Local Board" shall be omitted.
- 22. In section 53, the words " and Local Board " shall be omitted.
- 23. In section 71 proviso after the words "any order of conviction and compensation made," the words "or sentence passed" shall be added.

### STATEMENT OF OBJECTS AND REASONS.

1. The Union Boards should be developed. More trust should be reposed in them, There is no reason why they should not have the power of appointment and dismissal of the chaukidars and dafadars they pay for.

Safeguard is provided in the shape of the District Magistrate's veto against appointment of undesirable persons.

2. The upkeep and repairs of roads, works of public utility, which are not directly looked after by the District Boards, cannot be entrusted to better hands than the Union Boards whose members have occasion to use them daily. It is sought to provide funds for these works by amendments to appropriate sections.

3. Other amendments merely re-arrange sections or are consequential.

### Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

### COVERNMENT OF INDIA.

### Legislative Assembly.

We, the undersigned Members of the Select Committee to which the Bill to reserve the coastal traffic of India to Indian vessels was referred, have considered the Bill and the papers (Papers Nos. I—IV), and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto,

Clause 1.—An amendment has been made in sub-clause (2) consequential on the definition of "coastal traffic" in clause 2.

A proviso containing a suspending clause is necessitated by the provisions of section 736(a) of the Merchant Shipping Act. 1894 (57 & 58 Vict., c. 60).

Clause 2.—The definition of "coastal traffic" excludes Aden and Perim and ports in Indian States. It further exempts from the provisions of the Act the carriage of passengers with through tickets and of cargo on a through bill of lading to or from portoutside British India; also of mails and pilots in certain cases. These provisions are similar to those of section 7 of the Australian Navigation Act, 1912—1920. It was also decided to exempt the carriage of oil in bulk by oiltankers as a class of ships entitled to special consideration.

We have considered it desirable to place Rulers and subjects of Indian States in the same position as Indian British subjects for

all purposes.

Definitions (2) and (3) in the Bill as introduced have been consolidated in the definition of "Indian-controlled ship". We consider it desirable in the case of a corporation, partnership or association to prescribe a percentage of the right to profits as well as to capital and to provide that companies must be both incorporated and registered in British India in

order to render control effective. We have also required that the Managing Director and Managing Agent, if any, should be Indians. We further decided to include ships chartered by Government in the category of Indiancontrolled ships.

We were impressed with the desirability of precluding evasions of the Act by benamidars but decided that the imposition of penalties or disabilities on persons holding ships benami for non-Indians or on the non-Indian beneficiaries would involve very great complications. We have, therefore, decided to make no provision on these lines, but desire to record our recommendation that if, when the Act is in operation, devices of this kind are employed with success on a large scale, counteracting measures should be taken.

Sub-clauses (4), (5) and (6) introduce purely formal amendments.

Clause 3.—The retention of the expression "common carrier", which appeared in the Bill as introduced, might have defeated the object of the Bill. This expression is limited to persons who are bound to carry for the public; and shipping companies might have taken the opportunity to protect themselves against the operation of the Act by a declaration that they would not carry in certain circumstances. We have avoided this difficulty by the use of the word "ship".

Clause 4.—We have thought it desirable to obviate the difficulty which might arise if the total Indian-controlled tonnage applying for licences is inadequate to the needs of the coastal traffic by providing that the Governor General in Council shall in each year after consulting the public fix the total tonnage which ought to be licensed and retain a power [given by the proviso to clause 7 (3)] in such cases to make up the desired total by licensing ships other than Indian-controlled ships.

Clause 5.—In view of the provision which we have made in clause 9 for penalties, it is essential to require a definite form of application for licences containing a signed declaration as to whether a ship is or is not Indiancontrolled, together with relevant particulars.

Clause 6.—In this clause we have combined clauses 4, 5, 6, 7 and 8 of the Bill as introduced. The yearly variations of tonnage provided by clause 7 necessitate the alteration of the period of validity of a licence from three years to one year. We think that it is unnecessary to provide for renewal of licences.

Clause 7.—This clause reproduces substantially the provisions of clause 9 of the Bill as introduced with the following modifica-

(i) We consider it essential that all bond fide Indian-controlled vessels applying for licences in the first year should obtain them, especially in view of the fact that the number of such ships would not be excessive.

(ii) In order to prevent any rush to obtain qualification by exchange of shares, etc., at the last moment before application we have provided that, for the first year, only ships which were Indian-controlled on a fixed date to be inserted in the Bill should participate in the privileges conferred. This date should be as nearly as possible the date on which the Bill finally passes through both Chambers of the Indian Legislature.

(iii) As explained with reference to clause 4, provision has been made for the licensing in each year of the total tonnage considered necessary for the needs of the coastal traffic by licensing ships other than Indian-control-led ships if the latter do not apply in ade-

quate numbers.

Clause 8.—We were of opinion that a clause of this nature, based on clause 286 of the Australian Act, is necessary to meet temporarily the emergency of a sudden rush of traffic or failure of shipping between ports.

Clause 9.—We considered it desirable to particularise the offences and classes of offenders generally envisaged by clause 10 of The penalty prothe Bill as introduced. vided in (a) for the master of a ship is designed to provide an indirect means of control over persons not otherwise amenable to the municipal law of British India. Sub-clause (2) was added to meet the case of an offending company or firm.

Clause 10.—To the provisions of clauses 11 and 12 of the Bill as introduced we have added a power to cancel licences in respect of which a false statement or declaration has been made in an application and have made provision for forfeiture of security.

Clause 11.—We have inserted a rule-making power subject to the rules being laid in draft before both Chambers of the Indian Legislature, and to any Resolution passed by either Chamber with regard to the draft within a fixed period being taken into consideration by the Governor General in Council before the rules are finally made.

We have inserted a special reference to rules prescribing the conditions under which licensed ships may be chartered. We desire to place upon record our recommendation that

these conditions should prohibit a charter of the "bare boat" or any other form which transfers the control, management or running of a ship from an owner who satisfies the conditions contained in sub-clause (a) or (b) of clause (3) of section 2 to a charterer who does not satisfy the conditions contained in one or the other of those sub-clauses.

Clause 12.—This clause which follows section 4 of the Indian Merchant Shipping Act, 1923, exempts public ships from the operation of the Act.

Clause 13.—It was considered desirable to make it clear that the holder of a licence is in no wise exempted thereby from the requirements of the Indian Merchant Shipping Act, 1923, relating to certificates, etc.
2. The Bill was published as follows:—

### Minutes of dissent.

We have signed the report with the other members of the Select Committee purely as in duty bound.

duty bound.

We entirely dissent from the discriminatory principle underlying the Bill which is such as renders it impossible for us to put forward

any alternative proposals.

We refrain from comment upon any clause with the exception of No. 4 which, we are convinced, is thoroughly unpractical. To our mind, in operation it will undoubtedly cause serious difficulties to arise. Apart from the onus placed upon the Governor General in Council or upon any Government Department, the clash of opinions as to the estimate of tonnage essential to the needs of the coastal traffic in any year, is bound to lead to conflicting views causing delays and a general state of muddle, resulting, probably, in dislocation of the traffic and serious loss to those who are dependent upon coastal shipping.

The clause is objectionable to us also

The clause is objectionable to us also because it connotes Government control, rules, regulations and interference. Experience all over the world of late years has eloquently shown that the less Governments interfere with trade and commerce, the better

for all concerned.

Concerning the Bill as a whole, as Burma is interested in 75 per cent. both of coastal cargo and passenger trade, the danger threatening the province, if the Bill becomes law, is too great to be contempleted without misgiving.

JAS. F. SIMPSON.

W. STENHOUSE LAMB.

I consider that many of the amendments made in the Bill by the Select Committee are improvements, and that the Bill is now a much more workable and practical measure than it was at the time of its introduction. But, in my view, the Bill is open to the gravest objections in principle, and these objections have not been in any way removed, or even diminished, by the amendments made in Select Committee. I object altogether to discrimination between the citizens of the various parts of the British Empire in respect of the coastal traffic of India, and I object to the expropriation involved in that provision in the Bill which seeks to reserve completely the coastal traffic for Indian-controlled vessels at the end of five years from the date when the Bill becomes law. In these two respects the Bill has not been materially altered and I am unable to support it.

2. In the following points of detail the provisions of the Bill, as amended by the Select Committee, seem to me to be open to

criticism:-

(1) Sub-clause 2 (3) (b) (c) provides that 75 per cent. of the shares of stock of a Company must be vested in Indians, if the ships owned by the Company are to be Indian-controlled ships. There would, I apprehend, be great difficulty in practice in establishing the fact that a breach of this condition had occurred

that a breach of this condition had occurred. (2) Clause 4 imposes on the Governor General in Council the duty of determining annually the total tonnage which is essential for the needs of the coastal traffic. I am not satisfied that this could be done with sufficient accuracy to prevent grave inconvenience to trade if the quantity required was underestimated, or the partial frustration of the objects of the Bill if it was over-estimated.

A

BILL

TO

Reserve the coastal traffic of India to Indian vessels.

Whereas it is expedient to provide for the rapid development of an Indian Merchant Marine:

And whereas for this purpose it is expedient to reserve the coastal traffic of India to Indian-controlled vessels; It is hereby enacted as follows:—

Short title, extent and commencement.

- 1. (1) This Act may be called the Indian Coastal Traffic (Reservation) Act, 19
  - (2) It extends to the whole of British India.
- (3) It shall come into force on such date as the Governor General in Council may, by notification, appoint:

Provided that no such date shall be appointed until His Majesty's pleasure on this Act has been publicly signified in British India by notification.

Definitions.

- 2. For the purposes of this Act, unless there is anything repugnant in the subject or context, :-
  - (1) a ship shall be deemed to be engaged in "coastal traffic" if it takes on board cargo or passengers at any port in British India, other than Aden or Perim, to be carried to, and delivered or landed at, any other port in British India, other than Aden or Perim:
  - Provided that a ship shall not be deemed to be engaged in coastal traffic by reason only of the fact that it takes on board or carries
    - (a) passengers holding through tickets to or from a port outside British India;
    - (b) cargo consigned on a through bill of lading to or from a port outside British India and not transhipped to or from any ship engaged in coastal traffic and not licensed under this Act:
    - (c) mails, in the course of a continuous voyage to or from a port outside British India;
    - (d) pilots, as passengers who are proceeding from their home station for the purpose of meeting vessels requiring their services, or who are returning to their home station after piloting vessels; or
    - (c) in the case of an oil-tanker, oil in bulk;
  - (2) "Indian" means un Indian British subject or the Ruler or a subject of a State in India;
  - (3) "Indian-controlled ship" means a ship chartered by the Government, or a ship owned by or, if the ship is chartered, owned and chartered by—
    - (a) an Indian, or
    - (b) a company incorporated and registered in British India, or a corporation, partnership or asso-
    - (i) in which, in the case of a company not less than 75 per cent. of the shares or stock, other than debenture stock, or in the case of a corporation, partnership or association, not less than 75 per cent. of the capital and the right to not less than 75 per cent. of the profits, is vested in Indians in their own right and for their own benefit free from any trust or fiduciary obligation in favour of any person other than an Indian;

- (ii) of which the Chairman of the Board of Directors and the Managing Director, if any, and not less than 75 per cent. of the members of the Board of Directors are Indians;
- (iii) in which, not less than 75 per cent. of the voting power is vested in Indians:
- Provided that voting power vested in an Indian shall be deemed not to be so vested if, by any contract understanding or otherwise, it is arranged that such power is to be exercised directly or indirectly on behalf of any person other than an Indian: and
- (iv) of which the Managing Agent, if any, is an Indian or the Managing Firm, if any, fulfils the conditions specified in clauses (i), (ii) and (iii);
- (4) " licence" means a licence for coastal traffic issued under this Act:
- (5) "notification" means a notification in the "Gazette of India"; and
- (6) " prescribed " means prescribed by rules made under this Act.

No ship to engage in coastal traffic unless licensed. 3. No ship shall engage in coastal traffic, unless it is licensed for the purpose under this Act.

Determination of total tonnage of ships to be licensed.

- 4. (1) The Governor General in Council shall, in each year, not less than two months before the date on which it is intended to issue licences, by notification, publish an estimate of the total tonnage which is, in his opinion, essential for the needs of the coastal traffic in that year, and invite opinions as to such estimate and fix the date on which such opinions will be taken into consideration and the period within which applications for licences may be made.
- (2) The Governor General in Council, after considering any opinions which he may receive before the date so fixed, shall determine and publish by notification the total tonnage essential for the needs of the coastal traffic.

Applications for licences.

- 5. (1) Applications for licences may be made within the period fixed under sub-section (1) of section 4.
- (2) Every such application shall be in the prescribed form, and shall contain a declaration signed by the applicant stating whether the ship in respect of which the application is made is an Indian-controlled ship and such particulars as may be prescribed to enable the Governor General in Council to satisfy himself as to the accuracy of such declaration.

Licences

- **6.** (1) The Governor General in Council may, subject to the conditions hereinafter contained in section 7, after considering the applications, issue licences in the prescribed form and on the prescribed conditions to ships of an aggregate tonnage not exceeding the tonnage determined under sub-section (2) of section 4.
- (2) A licence shall be valid only for the year in respect of which it is issued.
- (3) Before issuing a licence, the Governor General in Council may require from the person applying therefor such security, not exceeding fifty thousand rupees, as the Governor General in Council may think fit, for compliance with the conditions thereof.

Issue of licences to Indian-controlled ships. 7. (1) In respect of the first year after the commencement of this Act, licences shall be issued to all Indian-controlled ships in respect of which applications for licences have been received which were Indian-controlled ships on the day of .

- (2) In respect of the second, third and fourth years, licences shall be reserved for Indian-controlled ships up to an aggregate tonnage of two-fifths, three-fifths, and four-fifths, respectively, of the tonnage determined for the year under sub-section (2) of section 4.
- (3) In respect of every year after the fourth year, licences shall be issued to Indian-controlled ships only:

Provided that if, after every application for a licence in respect of an Indian-controlled ship has been considered, the aggregate tonnage of the Indian-controlled ships which have been licensed is less, in the second, third or fourth year, than the tonnage up to which licences have been reserved for Indian-controlled ships under sub-section (2), or, in any, year after the fourth year, than the tonnage determined under sub-section (2) of section 4, the deficiency may be made good by the issue of licences to ships other than Indian-controlled ships.

Power to issue permits to unlicensed ships.

- 8. If the Governor (leneral in Council is satisfied that---
  - (a) no licensed ship is available for, or that the service rendered by licensed ships is inadequate to the needs of, the coastal traffic to or from any port or between any ports in British India, and
  - (b) it is desirable in the public interest to take action in this behalf,

the Governor General in Council may issue permits in the prescribed form to unlicensed ships to engage for a period not exceeding three months in coastal traffic, subject to such conditions as may be specified in the permits, and nothing in section 3 shall apply to a ship to which such a permit has been issued during the continuance of the permit.

Penalties.

- 9. (1) Any person who-
  - (u) is the owener, charterer or agent or has command or charge of a ship which contravenes the provisions of section 3, or
  - (b) contravenes the conditions of a licence, or
  - (c) signs a false statement or false declaration in an application for a licence, knowing the same to be false.

shall be punishable with simple imprisonment which may extend to six months, or with fine which may extend to ten thousand rupees, or with both.

(2) Where a person punishable under sub-section (1) is a company, corporation, partnership, or association, any secretary, director or other officer or person concerned with the management thereof shall be punishable as provided in that sub-section, unless he proves that the offence was committed without his knowledge or without his consent.

Cancellation of licences.

10. (1) If the Governor General in Council is satisfied that there has been a breach of the conditions of a licence, or that any licence has been issued upon an application which contains a false statement or false declaration, the Governor General in Council may cancel the licence:

Provided that no licence shall be so cancelled unless the holder thereof has been given an opportunity to show cause against the cancellation or has been convicted of an offence under clause (b) or clause (c) of sub-section (1) of section 9 in respect thereof.

(2) Where any licence is cancelled under this section in consequence of a breach of the conditions thereof, the Governor General in Council may direct that any security taken under sub-section (3) of section 6 for compliance with such conditions shall be forfeited either in whole or in part.

Power to make rules.

- 11. (1) The Governor General in Council may, by notification, make rules for carrying out the purposes of this Act.
- (2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely:—
  - (a) the form of licences;
  - (b) the conditions of licences, including the conditions under which a licensed ship may be chartered;
  - (c) the manner and form in which application for licences shall be made;
  - (d) the particulars to be contained in applications for licences;
  - (e) the form of permits.
- (3) No notification shall be made under sub-section (1), until it has been laid in draft before both Chambers of the Indian Legislature and the Governor General in Council has taken into consideration any Resolution relating to the draft which either Chamber may have passed within the next thirty days on which that Chamber has sat after the draft has been so laid.

Exemption of public ships.

12. This Act shall not apply to ships belonging to His Majesty or the Government, or to ships belonging to any foreign Prince or State and employed otherwise than for profit in the public service of that Prince or State.

Saving.

13. Nothing contained in this Act shall be deemed to derogate from any of the provisions of the Indian Merchant Shipping Act, 1923.

S. N. BANERJEE, Executive Engineer, Khulna Division. RESOLUTION ON THE ANNUAL REPORT OF THE DEPARTMENT OF AGRICUL-TURE, BENGAL, FOR THE YEAR 1928-29.

### **GOVERNMENT OF BENGAL.**

Department of Agriculture and Industries.

### <sup>†</sup>Agriculture.

CALCUTTA, THE 20TH FEBRUARY 1930.

RESOLUTION-No. 988 Agri.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read-

The Annual Report of the Department of Agriculture, Bengal, for the year 1928-29.

Staff.—A very important step was taken during the year under review by the appointment of an Agricultural Engineer. The scope of his activities includes the construction of dams and leads for flow irrigation in Western Bengal, supervision and sinking of tube-wells in suitable areas, construction and maintenance of farm machinery suitable for Bengal and the training of apprentices. All these are essential to the advance of agriculture in this Presidency, and it is hoped that progressive development will now be possible on the lines indicated.

It is encouraging to notice that the Agricultural Engineer has made a good beginning in the matter of irrigation, tube-well construction and manufacture of implements to suit local needs, while a scheme for apprenticeship training is under preparation. A gratifying feature of his activities is that he is getting some local reputable firms interested in the manufacture of machines to his design, with the result that favourable prices have been secured.

- 2. The main lines of activities of the department may be broadly classified under the following three heads:—
- (1) Research, (2) Demonstration and Propaganda and (3) Agricultural Education.

The progress made in each of these directions is reviewed below:—

Research.—In the words of the Royal Commission "the basis of all agricultural progress is experiment." As a matter of fact demonstration and propaganda can only follow successful experiment. The constitution of Council Imperial of Agricultural Research in pursuance of the recommendation of the Royal Commission can be said to mark an epoch in the history of development of scientific agriculture in this country. As suggested by the Commission, while gested by while. refraining from exercising any proadministrative control over the vincial research institutions already in existence, the Council will be a body to which the Provincial Departments of Agriculture may look for guidance in all matters connected with research. In accordance with the recommendation of the Royal Commission a Provincial Research Committee is also in process formation. The Commission realised that occasional visits to provinces by the Chairman and members of the Central Research Council and even provincial representation thereon will not provide sufficient contact between the Council and the Provincial Depart-They accordingly suggested the establishment of Provincial Research Committees which will work in close co-operation with the Central Council. It is hoped that the Bengal Provincial Committee will not fail to achieve the object for which it is now being constituted.

Turning now to the activities of the three research sections of the department, Government are pleased to notice that while the Fibre and Botanical Experts are mainly engaged in the solution of the problems connected with the two staple crops of the province, viz., jute and paddy, the Chemical Section has devoted its attention to sugar and tobacco problems. A noticeable feature is that the active co-operation of Dacca University has been secured and that some of the students of the University are now engaged in agricultural research work.

Demonstration and Propaganda.—As observed by the Royal Commission, agricultural research can be of no avail to cultivators until its results are

brought to their doors in a form in which they become a part of their agricultural practice and the best quickest method of influencing best practice of the cultivators is to demonstrate an improvement in method on a small plot cultivated under departmental control or direction. It is highly gratifying to note that the Bengal Agricultural Department is already fully alive to the utility of this method of ocular demonstration and that the *Borga* system of cultivation under close departmental supervision, as in Kishoreganj in Mymensingh, has proved eminently successful and is being extended. While sympathising with the department that financial conditions do not permit the entertainment of an adequate staff for demonstration work, Government are glad to observe that the department is making the most of the opportunities that are available.

It is also very encouraging to note that the number of private farms is gradually on the increase and that many of the *bhadralog* class are now taking to farming under their own personal management.

Agricultural Education.—It is extremely unfortunate that financial stringency still stands in the way of giving effect to the important and long pending scheme for the establishment of an Agricultural Institute at Dacca. Meanwhile a scheme for the opening of a Dairy Section at the Dacca Farm has been administratively approved and awaits provision of funds.

It is pleasing to note that the Punjab scheme of agricultural training classes for the teachers of High and Middle English schools has proved successful within this short period of its introduction, so much so that the full complement of 30 teachers provided for in the scheme is now under training and that more schools than can be provided for are now eager to come under the scheme. It is hoped that in due course these trained teachers will succeed in creating an agricultural bias among the students of their respective schools. As one of the possible means of solving the vexed problem of middle class unemployment the result of the scheme for the training of bhadralog's sons (who

on completion of their training will be provided with khas mahal land for carrying on agriculture on business lines) is also being watched by Government with keen interest. The sooner the middle class youth learns the dignity of manual labour the better not only for themselves but also for the economic salvation of the country.

- 3. Cattle breeding is another important aspect of the activities of the department. While it is satisfactory to note that the Premium Bull system has been working satisfactorily, the report that the bulls purchased for the co-operative societies under the new scheme are not so satisfactory has been a source of some anxiety. Government, however, share the hope expressed by the Live-Stock Expert that when the societies learn to feed their bulls properly better results will follow.
- 4. Sericulture.—The most noticeable points in the activities of the Sericultural Section of the department are:—
- (1) that attempts are being made to organise co-operative societies among the men engaged in the profession with the main object of financing the industry; and
- (2) that the programme for demonstration and propaganda is being systematically carried out in several districts.
- 5. Royal Commission.—Most of the recommendations of the Royal Commission have been considered by this Government; and it is worthy of note that the policy underlying a large number of them is already being followed in this Presidency. There are, however, some recommendations which entail additional expenditure; and Government while highly appreciating their value is unfortunately not in a position to give effect to them under present financial conditions.

As observed by the Commission, there are some serious obstacles in the way of development of scientific agriculture in this country which have to be overcome before any appreciable headway can be made. Among them may be prominently mentioned:—

(1) inherent conservatism of the cultivators which makes them doubt whether the new methods and implements will suit their conditions and purse;

- (2) subdivision and fragmentation of holdings mainly due to the land laws and laws of inheritance; and
- (3) general poverty of the cultivating class which gets them into the usurious grasp of village mahajans.
- 6. Acknowledgment.—The thanks of Government are due to Mr. Finlow for his efficient administration of the department. The names of the other officers—superior and subordinate—commended in the report are also noted with pleasure. Government would also

acknowledge with thanks the assistance rendered by a gradually increasing number of officials and non-officials to the department in its various activities and the co-operation of the members who serve ungrudgingly on the Board and Committees connected with the department.

By order of the Govt. of Bengal (Ministry of Agriculture),

> G. P. HOGG, Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING 1928-29.

### GOVERNMENT OF BENGAL.

CALCUTTA, THE 28TH JANUARY 1930.

RESOLUTION No. 374M.

Minister-in-charge; The Hon'ble Kumar Shib Shekhareswar Ray.

READ-

Reports from Commissioners of Divisions on the working of the municipalities in Bengal (except Calcutta) during 1928-29.

Number of municipalities.—The number of municipalities remained 116 and two changes only occurred in their boundaries, those of Baranagore and Kushtia being enlarged. Settlement work in the 24-Parganas showed incidentally that several municipalities in this district have lost their boundaries at one point or another, where through defect of drafting or lapse of years the original line can no longer be traced. In course of time the department will put this right by notifying the boundary line on up-to-date methods, with the help of the settlement map, and in the meanwhile none of these small townships seems to be much disturbed by finding itself bordering on No-man'sland.

Elections.—Municipal general elections occurred as usual in about onethird of the municipalities, 42 to be exact, and on the whole show a growing interest in the exercise of municipal franchise. The towns people of Comilla where 1,900 voters polled out of 2,635 on the register, of Bally which polled over 80 per cent. of its voting strength, and of the ward in Kotechandpur which sent every voter to the polling station, have little to learn in municipal electioneering activities. Quite problem difficult about these borough elections, and one in which little progress has been made since the rejection of Bengal Municipal Bill, lies in the facility with which reference to the Civil Courts can forestall the constitution of the newly elected Board. Two years have elapsed since the municipal election in Ranaghat and the Commissioners of the new Board are still awaiting the termination of Civil Court proceedings before they can succeed the old. The elections were similarly frustrated in five other municipalities including the important town of Dacca.

- 3. Population and rate-payers.-Municipal affairs cannot be viewed in their proper perspective without recalling that the total population of municipal areas outside Calcutta comprises only a little over two millions, no attempt being made to adjust the census figure year by year, and that the number of rate-payers in the year under review had risen only to 330,000 or 16.4 per cent. of the urban population. In ten cases the number of rate-payers was in fact less than a tenth of the population of the town, but these are of an exceptional character, eight being mill municipalities with a floating labour population and the other two the hill municipalities of Darjeeling and Kurseong.
- Municipal meetings.—It has been customary to include in this Resolution detailed statistics of the number of meetings' of municipal boards, their failures for want of quorum, and adjournments. their It is sufficient however for public interest, and as an index to their activities, to observe that municipal boards met on 2,450 cccasions, found themselves short of a quorum at 123 of these meetings, and ad-185 of the same number. A dozen municipal boards stagnated with less than one meeting a month. On the other hand, the Board of Hooghly-Chinsurah continues to show the rest of the province the way to the municipal council chamber where they assembled on no less than 61 occasions not always however in sufficient strength to do business.
- 5. Rates and taxes.—The burden of municipal rates is far from excessive. Only in the municipality of Darjeeling does the incidence of taxation exceed Rs. 10 per head of population closely approached by Kurseong with an incidence of Rs. 9-9 per head. In the plains these figures are approached by Howrah Municipality with an incidence of Rs. 8-15 per head notwithstanding its large population below

and just above the rate-paying level, and the two next most expensive towns to live in, from the view point of municipal taxation are Chittagong and Burdwan with an incidence of Rs. 6 and Rs. 5-3 per head (taken to the nearest anna). In seventeen municipalities the incidence is below Re. 1. per head. There was, however, an upward tendency in the total receipts from municipal rates and taxes, which were returned at Rs. 67.7 lakhs as against Rs. 65.3 in the previous year, swelled, as some Divisional Commissioners report, by disproportionate assessment of Government and Railway premises. Detailed changes in modes of assessment and the imposition of new rates are hardly of public interest to record; but there was a steady and weltendency to substitute the more equitable and productive rate on holdings for the rate on persons. General or partial revision of assessment took place in 61 municipalities, but the figures given for the increase resulting are largely fallacious, as the municipal assessment appeal committees are almost invariably disposed to nullify the virtue of a just and strict revision of valuations, when obtained, by liberal reduc-tions on appeal. There seem grounds to believe that if municipal assessment is to result in valuations furnishing an income in correspondence with the nominal rate, and which therefore are . fair both to rich and poor alike, some quasi-judicial machinery for revaluation will have to be devised, immune, as municipal assessment committees are too often not immune, from a tone of compliancy to objections and from anxiety about retention of office on the Board.

Collections.—Though the percentage of realisations to demand fell by as much as ·6 per cent. (95:05-94:45) a sum of nearly three lakhs more was realised in collection of (Rs. 66,42,000 in all) than in the previous year. In individual towns the percentage of realisations sank below 80 in Bansbaria and Bankura. On the other hand, the municipal authorities of Nalchiti and Garulia showed, as they did last year, what can be done in a wellassessed town, by collecting the whole of their demand without remission, and Titagarh and Champdani only fell short of this accomplishment by percentages of ·2 and ·3 respectively. The infant municipality of Gauripur entered on its existence with the creditable percentage

of 99.2 in realisation, and Rangpur and Raniganj (99.1 and 87.68 respectively) showed a vast improvement on figures for the previous year which are best forgotten.

The total remission of rates rose by the disquieting figure of Rs. 75,000 to Rs. 3.37 lakhs. Rajpur and Barasat Municipalities wrote off more than a quarter of their income from rates in this manner, while the remissions in Bankura and Bally extended to one-fifth of the demand! The figures for Bally, however, were affected by certain individual large premises.

No less unfavourable than the increase in remissions is the increase in outstanding arrears by over one lakh of rupees to Rs. 16,85,000, approximately 25 per cent, of the demand realised. These figures are however unduly weighted by arrears of over six and a half lakhs of rupees in Howrah and over two lakhs in Dacca. The latter are due largely to difficulties arising from civil litigation which, it is hoped, have now been surmounted by a favourable decision in the Privy Council. The somewhat serious position suggested by the figures for Howrah has not been explained and will receive the further attention of Government. In nine other municipalities the unrealised balances exceeded Rs. 25,000, far too high a figure for the financial capacity of these rural townships.

- 7. Income and expenditure.—The total receipts, including opening balances, amounted to Rs. 129:6 lakhs against Rs. 112:1 lakhs in the preceding year and the total expenditure to Rs. 114:5 lakhs as against Rs. 96:3. So small at the best is the scale of municipal activities outside Calcutta that the receipts by the Titagarh Municipality of a grant of eight lakhs of rupees and an advance of thirteen lakhs towards its sewerage scheme and expenditure of a little over ten lakhs on this object was sufficient to deflect the total figures materially from normal.
- 8. Closing . balance.—The total balances to the credit of the municipalities at the end of the year had decreased from Rs. 15.73 lakhs to Rs. 15.06 lakhs. It is notoriously difficult to fix the point at which legitimate expenditure of the

year's income on the welfare of the town borders on unsound finance, but it is quite clear that in several cases outstanding liabilities reduced the true balance to a precariously small figure or even to an actual deficit. This was noticeably the case for instance in the of Hooghly-Chinsurah, townships Madaripur and Baruipur (since suspended) with liabilities of Rs. 52,800, Rs. 2,700 and Rs. 4,100 respectively against balances of Rs. 1,317, Rs. 84 and Rs. 205. A similar position in Mymensingh was among the factors which necessitated a special enquiry into its administration after the close of the year. The difficulties of a municipality involved in land acquisition were illustrated in the case of Dacca where increase of an award by the appellate court resulted in peremptory demand of Rs. 36,682 which could only be met by an overdraft on the Imperial Bank.

Education.—The total expenditure on education, including the Government grant of Rs. 1.3 lakhs, rose from Rs. 4.3 lakhs in the preceding year to Rs. 4.57 lakhs, expenditure on primary education within this total showing a corresponding rise. The municipalities which principally contributed to the increase, were Berhampore, Chittagong and Burdwan, Berhampore spending Rs. 15,620 as against Rs. 3,084 in the previous year, and Chittagong Rs. 25,269 as against Rs. 22,000. Rangpur, Madaripur and Barisal reported decreased expenditure, but the figures for the previous year included special construction. An education cess is at present levied by the Berhampore and Rangpur Municipalities and produced an income of Rs. 4,657. Progress with the Biss Scheme for primary education is reported in Dacca which opened three primary schools in addition to the three in existence, Burdwan with a primary school in each of its five wards and in Budge-Budge and Chandpur.

Municipalities have only touched the fringe of the problem of providing education for the foung children within their areas. Outside Calcutta there are in urban areas about 270,000 children between the ages of 6 and 11, while primary schools and the primary classes of secondary schools can hold at most just over 100,000 pupils.

The problem of "wastage" in these schools which results in such rapid diminution in the number of pupils as we

ascend from the lowest class is one which has received little attention from the authorities. And yet its existence renders very illusory the advance towards literacy which is claimed.

Chittagong alone, by making primary education compulsory throughout the municipality, has realized its responsibilities. A fair measure of success has attended its efforts, and there are now 2.500 pupils being taught in 38 primary schools, but there also the prevalent "wastage" is all too apparent.

This municipality would gladly go on to the free compulsory primary education of girls did its powers under the Act extend to this; and, as far as its resources permit, is opening a number of girls' primary schools to pave the way for this measure.

A rough estimate has been made of the money that will be required by urban authorities before they are able to give primary education, even of the cheapest, to all their children, and the figures are about Rs. 13 lakhs recurring and double that amount non-recurring.

Water-supply.—The total expenditure on urban water supply fell from Rs. 14:3 lakhs to Rs. 12:05 lakhs, a decrease the more regrettable as this comparatively small figure includes the maintenance of existing works as well as new construction. One of the causes tending to slow down progress with new works is the difficulty so often found by townspeople in realising the local contributions in the expectation of which they have felt justified in approaching Government for a grant. When Government sanction the grant they naturally require the local resources promised to be collected before the grant is paid. These more slowly than was in expected and the time is past for the necessary formalities of budget procedure to be completed before January with the result that payment of the Government grant must await the next financial year and twelve months are lost. With no prospect of an immediate grant local efforts relax and too often the same process repeats itself again. The most important new work under construction was the third section of the Dacca scheme, and work on new projects was also in progress in Burdwan, Faridpur and Asansol, while that at Chandpur was brought on to the list for construction in 1929-30. Jalpaiguri, Noakhali, Narayanganj, English Bazar, Bhatpara and Rajshahi were also interested in new schemes some of which received sanction at various stages.

Recourse to tube wells in urban areas is an interesting step noticed by two or three Divisional Commissioners. Several recent projects have in fact been based on tube wells of large bore, but apart from these municipal boards such as Rajshahi, Pabna and Bogra have found it useful, especially during shortage of water-supply to sink small tube wells without any subsidiary piping to give local relief in the poorer quarters. As a rule this policy has served its purpose, but it has proved a mistake to aim at cheapness by sinking shallow tube wells in the vicinity of the river, a temptation which certain small towns in the 24-Parganas have cause to regret.

There is a constant risk in the rural towns, whether through want of experience or of funds, of insufficient attention to the proper mechanical upkeep of existing plant. The water works in Comilla broke down soon after they were opened and a three lakhs scheme has ended for the present in improvised pumping from a tank, while the risk to the towns people of Mymensingh from deterioration of the pumping plant eventually led to the intervention of Government.

Metering of house connections as a means to prevent waste has always been a subject of contention, and unfortunately one board at least has assumed an authority which it does not possess to continue to grant house connections without meters in spite of the statutory rule to the contrary now in force.

11. Conservancy and drainage.—Expenditure on conservancy rose from Rs. 22.7 lakhs to Rs. 33.7 lakhs, the normal figures being completely thrown out of gear by the expenditure in Titagarh referred to in paragraph 7.

No feature of municipal finances gives a more unfavourable impression than the inveterate tendency to debit to the general funds the cost of conservancy, a charge which should be met from the latrine rate designed for the purpose. The extent of this drain on the general fund amounted to an excess of over five lakhs in expenditure over receipts from the latrine fund, or nearly 25 per cent. of the expenditure—these figures excluding

the abnormal items at Titagarh. Rate. payers would rather see the funds for well-being curtailed general urban than a rate levied for conservancy that meets its full cost; and the municipal boards too often follow the line of least resistance, with this demoralising result. Several municipalities reported sweepers labour trouble with the during the year, overcome in most instances by some small concession. housing of municipal sweepers in many cases presents legitimate grounds for complaint and rural townships will have seriously to face the problem of recruiting this imported labour of monopoly type. Expenditure on drainage has in the past been noticed in a separate paragraph, but the dividing line between this and conservancy is not always clear. It is sufficient to say that the total reported increased from Rs. 3.2 lakhs to Rs. 3.7 lakhs spent mostly on various small measures for the improvement of surface drainage.

- **Lighting.**—Expenditure this head was practically stationary at six lakhs. Electric light is gradually finding a place in the larger rural townships, but Bally near Calcutta is the only municipality to report its adoption as a new measure in this year. The refusal of the Burdwan Municipality to raise the special rate to meet the cost of electric lighting which the Act places in their hands is another instance of the tendency to poach on the general fund for special services mentioned in the paragraph on conservancy. The primitive system of lighting in the smaller rural municipalities remains, it is to be feared, the constable's handicap of which the police authorities have so often complained.
- Public Health.—It is a welcome 13. change to tuen from these criticisms of the financial administration of local bodies to their manifold activities in the field of public health. The total expenditure on the pay of Health Officers and Sanitary Inspectors for the first time exceeded two lakhs, and if there is any department of municipal work in which a sense of forwardness and enterprise is apparent, it is in that concerned with public health. It is perhaps not of much interest to dwell on details of tank filling and jungle clearing. work went on, but as one Commissioner shrewdly observes notwithstanding the self-laudatory reports of townships year by year on this point the insanitary

tanks and the oppressive undergrowth are still there. There is more sense of reality in the reports of action taken to counter epidemic disease. The chlorinating of the water supply, as in the town of Burdwan, is now perhaps a matter of routine and carried sometimes to excess. All Divisions report attention to vaccination, and examination by school health officers of over twelve hundred schoolboys in Dacca showed that only 54 were unprotected. In Bogra it is specially noticed that private practitioners cooperated with the municipal health authorities in insisting on vaccination, and the municipality of Bhatpara prosecuted over 100 cases of breach of the Vaccination Act. More interesting, because a newer movement and because of its incalculable possibilities, is the interest shown in inoculation against cholera. Here again it is difficult to avoid mentioning the town of Dacca where during an epidemic over twelve thousand persons were inoculated and only one death was reported amongst them. Numerous other towns especially in Eastern Bengal report their success with inoculation against cholera, and there is good reason to hope that in the short space of three years this form of protection has firmly established itself in favour with the health authorities of rural townships in Bengal. The usual efforts to cope with malaria and kalaazar were continued with the assistance of Government in grants and allotments of quinine, and the Birnagar Palli Mandal again distinguished itself as a model for local organisations framed to combat malaria. especially Yet another aspect of public health work in which municipalities show increasing interest year by year is the checking of adulteration of foodstuffs exposed for No less than fifteen tons of adulsale terated foodstuffs were destroyed in Dacca town, and fines imposed in Narayanganj amounted to Rs. 725. Unfortunately, however, the leniency of the Courts towards a practice which saps the physique of the town-dweller goes to impair the deterrent effect of More than half the these prosecutions. samples of foodstuff sent examination from Dacca to the Public Houlth Laboratory were found to be adulterated. Before leaving the subject of public health one may mention the opening of classes for dais in towns such as Chittagong and Krishnagar and somewhat sporadic efforts to eliminate waterhyacinth.

14. Public Works.—Expenditure on public works decreased from Rs. 12.4 lakhs to Rs. 10.9 lakhs, a sure sign that municipalities are falling behindhand in meeting the elementary material needs of town life, especially in point of communications. The net decrease however in the plains municipalities does not much exceed Rs. 1 lakh.

Complaints are universal of the rapid deterioration of urban roads through the increase of motor bus traffic and the insufficiency of municipal resources to meet this new type of wear and tear on the roads. Too much must not be expected from the road fund constituted with the 2-anna increase in the tax on petrol, the proceeds of which will be devoted primarily to arterial and inter-provincial roads and will not go very far even in this limited sphere. From Dacca, Chittagong and other municipalities there has come demand however for the taxation of motor vehicles as a source of income towards expenditure on the roads which they damage, and Government hope before long to respond to this demand by bringing forward in a revised form the Bill for the Taxation of Motor Vehicles which was shelved after reference to a Select Committee three years ago. It is usual to record the total mileage of roads in urban areas, viz., 1,383 miles metalled and 1,641 miles unmetalled.

- 15. Loans.—The total indebtedness of municipalities outside Calcutta amounted only to Rs. 26:4 lakhs, a sum which indicates the limited scale of their capital works in recent years, and beyond a new loan of Rs. 62,734 to the Suri Municipality for water-works and drainage, and the success of the Jiaganj-Azimganj Municipality in obtaining a small private loan free of interest, there is practically no feature to record during the year.
- of municipal accounts is a matter to which Government have recently been paying increased attention. A corollary of the financial freedom conferred on these local bodies in pursuance of the policy of the last decade, is a strict and effective audit going hand in hand with insistence on publicity of the audited report and on attention on the part of the municipal authority to the defects reported. Government are by no means satisfied that the present rules and system afford an adequate guarantee for

these essentials and are examining the whole matter further. In the meanwhile it is proposed to give publicity to the annual report in which the Examiner of Local Accounts reviews the results of audit in the previous year, a valuable summary of current financial tendencies which has up to the present remained unknown.

...

It is not the purpose of this Resolution to condemn in general terms the conduct of municipal accounts, and Government readily appreciate the handicap of an honorary executive served by a poorly qualified and sometimes under-paid municipal office staff. At the same time the dolay in dealing with audit notes of which the Local Examiner and Divisional Commissioners complain year after year, is by no means an unavoidable consequence of this position. Still less can it be taken as adequate excuse for the confusion in accounts and the far too frequent defalcations which audit has brought to light, or for the general attitude of leniency on the part of Commissioners and executives to the municipal employé in a position of trust whose financial delinquencies are established. There were as many as five cases of prosecution for embezzlement on the part of municipal employes in one stage or another during the year; and in at least two other cases of embezzlement in the Jamalpur and Jhalakati Municipalities the Chairmen and Commissioners accepted a settlement without criminal proceedings. With the numerous and too often serious defects in financial procedure mentioned in individual audit reports it is beyond the scope of this Resolution to deal.

General remarks.—It is perhaps not a very profitable task to attempt to sum up year by year the plus and minus account of progress in municipal life and activities in Bengal for there is not much variation to be found in the Commissioners' Reports. The evils of faction and the reluctance of municipal authorities to face unpopularity by imposing adequate taxation, or even by realizing through distraint when necessary the full dues of the year on the too often inadequate scale of rates imposed, are prominently mentioned in this year's reports as they have been in the past. Too often the more immediate and material requisites of urban well-being -good roads and good drains-suffer from the apathy engendered by the

restricted income of the town. On the other hand, there are undoubted signs of vitality in the increasing interest in municipal elections and in the response by municipal boards to the encouragement offered by Government for the development of public health activities.

The names of the following Chairmen, Vice-Chairmen and Municipal Commissioners have been brought to the notice of Government on account of good work done by them, and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of the public spirit shown by these gentlemen:

RESOLUTION ON THE REPORTS OF THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1928-29.

### GOVERNMENT OF BENGAL

Local Self-Government Department.

CALCUTTA, THE 7TH FEBRUARY 1930. .

RESOLUTION- -No. 539L.S.-G.

Minister-in-charge. The Hon'ble Kumar Shib Shekhareswar Ray.

READ-

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1928-29.

District Boards.—There are twentysix District Boards in Bengal. The number of persons in the position of Member, now much sought after, was 683, of whom two-thirds owed their position to election and one-third to nomination. The District Board of Darjeeling was the only Board constituted under the old system with the District Officer nominated to the Chair, the chairmen of all other bodies being private members elected to office by the Board. The number of meetings convened during the year was 428 of which only five failed through lack of attendance, and the interest of the Jessore District Board in its affairs is to be measured by the high percentage of 98.00 in members present.

Local **Boards.**—Beyond function as electoral colleges for District Boards it cannot be said that Local Boards, with their delegated resources and powers, attract great interest; and it is primarily to meet the legal position arising from the establishment of Union Boards in Jalpaiguri and Malda that their number is now being increased. During the year 1928-1929 there were 82 Boards with a membership of 1,343 (an increase of 4 over the previous year through revision in Birbhum) and in all but seven Local Boards the Chair was filled by election from among the private members. In four of these seven cases an official held office by election. The average number of meetings convened was between 9 and 10 with a slightly higher percentage of abortive meetings than in the case of District Boards.

- 3. Union Boards.—It is a matter for regret that the difficulty experienced in certain districts in completing statistics for these numerous small bodies prevents a review of their work at present; and the Ministry of Local Self-Government hope shortly to issue a separate Resolution on the working of the Village Self-Government Act.
- Income, Expenditure and Balances.—The total receipts and expenditure of District Boards in 1928-29 amount to Rs. 1.56 crores and Rs. 1.52 crores, an increase of 10.5 lakhs and 2.7 lakhs, respectively, over the totals for the previous year. These figures for the total monetary transactions of all District Boards in the province should be viewed in their proper perspective against the Calcutta Corporation budget of over two crores. No less than three lakhs of the increase in receipts can be traced to Government grants. The inelasticity of the revenue from Cess which constitutes about half the total income is one of the great handicaps of District Boards, and the proceeds from this source rose only by 1.5 lakhs. The actual net balance to the credit of District Boards at the end of the year was Rs. 17.6 lakhs as against 15.9 lakhs. This increase represents no change in the financial status of District Boards but is due to failure in one district and another for various reasons to work off special grants or capital allotments.
- 5. **Education.**—The expenditure rose by Rs. 1.4 lakhs to Rs. 36.6 lakhs of which Government contributed Rs. 21.3 lakhs while other receipts, including school fees and contributions, amounted to Rs. 77,000. District Boards from their own funds spent Rs. 14.6 lakhs against Rs. 12.6 lakhs in the preceding year.

The number of upper and lower primary schools maintained and aided by District Boards rose from 46,400 to 47,900 one-fourth of which was for girls. The number of pupils attending these schools was boys 1,268,500 and 307,800 respectively in the previous year.

Union boards in several districts continued to maintain free primary schools and some new schools were established

during the year. The 24-Parganas District Board pursued their policy of establishing one free primary school in each thana.

. .

There have been cases where District Boards have failed to use grants fully or for the specific object for which the money was given, and a more adequate check is necessary to prevent such diversion of funds.

The District Boards of Bankura, Midnapore, Hooghly and Pabra aided respectively 84, 35, 34 and 70 night schools for the education of the depressed and labouring classes. The Bankura District Board paid a grant of Rs. 550 to the Music School at Vishnupur.

One Technical and Industrial School was maintained by each of the District Boards of Burdwan, Khulna, Mymensingh, Rajshahi and Noakhali. In addition, the District Boards aided 58 such schools. This class of institution is gradually gaining in popularity and may in time contribute to the solution of the problem of middle class unemployment. The Technical and Industrial Schools at Bogra and Pabna are maintained by Government and the Boards award scholarships tenable at these institutions. Nadia subsidised 4 technical and industrial institutions.

The peripatetic weaving schools in the Bankura district are doing good work towards the instruction of the aboriginal tribes. Many of these people are maintaining their families by adopting the weaving. Two profession of schools are maintained by Government in each of the districts of Bakarganj and Jalpaiguri; and there is a growing demand for more of these in the dis-Those at Bakarganj have been working for the last two years during which period altogether 260 persons were trained in improved method of weaving and 178 flyshuttle looms intro-Other weaving schools maintained or aided by District Boards are also doing useful work. Government provincialised two weaving schools in Dinajpur. Board The District Noakhali appointed an inspector trained at Bolpur for the encouragement of home industry. The Howrah District poard introduced hand spinning in some middle and primary schools for boys and girls.

Physical culture of students continued to receive the attention of the Bankura and Midnapore District Boards.

Public Health and Medical Relief.—In three years the expenditure of District Boards on public health has risen, with the help of grants from Government, from twenty-two lakhs to twenty-nine lakhs of rupees. There has sprung into existence an entirely new type of public health organization in the shape of the rural health unit in charge of a trained sanitary inspector for each police station, the cost of which is met by Government while it remains under the control of the District Board. The scheme which was halfway towards completion in 1928-1929 involved expenditure of Rs. 3,89,000 by Government during that year, an entirely new expenditure which had found no place at all in budgets before 1926-1927. The Sanitary Inspector is usually not a medical practitioner but trained only in public health as distinct from medical practice, and is responsible for precautionary measures against epideinic diseases and emergency action such as disinfection and vaccination when epidemic diseases occur. Commissioners mention work favourably, especially in the 24-Parganas and Howrah; but the movement is of too recent a growth to obtain full prominence in the reports.

Mention was made in the last Resolution on Public Health of the rapid progress made with mass inoculation as a preventive against cholera, and this subject, like that of vaccination, is more appropriately dealt with in that Resolution. It is sufficient to say that District Boards without exception now welcome the new measure in cases of cholera epidemic, and that for instance 50,000 persons were inoculated in Howrah district and 85,000 in Bakarganj.

In vaccination against small-pox the most interesting area was the Malda district, where the District Board almost tripled their vaccination staff and seriously set to work to vaccinate every person in the district. The example has since been brought to the notice of other District Boards.

Government assisted District Boards with the usual grants towards coping with malaria and kala-azar. In some districts there has been a slackening down of kala-azar work due apparently to a genuine reduction of the disease. No such variations are reported on the scale of work against malaria, which continued in full vigour with the help of grants-in-aid and grants of quinine from Government.

If prominence has been given to the public health work of District Boards it must not be supposed that there was any loss of interest in dispensary work. The number of dispensaries maintained and aided by District Boards continues slowly to rise (530 and 376, respectively, as against 520 and 357 in the previous year) and the figures reported do not include Union Board dispensaries, all of recent foundation. The carefully administered grant towards the cost of new thana and village dispensaries encourages the opening of dispensaries in new areas, for which alone it can be drawn on, and is tending rapidly to promote the establishment of one dispensary at 'least in every police-station. When every police-station in Bengal has its dispensary and its rural health unit working under the control of the District Board (and that standard is already within measurable distance) there will exist the framework of a medical and public health organization for rural areas with which probably no other province in India can vie.

- **Veterinary Work.**—Expenditure this head decreased slightly through fortuitous reasons, rather than through curtailment of the existing scale of activities, and totalled only Rs. 2.12 With so small a sum spent on the care of animals in rural Bengal it is hardly necessary to dwell on the complaints of inadequacy of the staff and results which several districts acknoweledge. Government have recently sanctioned the free supply of serum up to Rs. 70,000 per annum, which some District Boards seem actually to have obtained in advance of the formal concession; and it is to be hoped that the saving thereby secured will be applied by District Boards to promote their veterinary work, and not merely be taken in reduction of expenditure on this head below the present meagre standard.
- 8. Civil Works.—A decrease in expenditure on Civil Works from Rs. 62.9 lakhs to Rs. 60:8 lakhs is attributable to the abnormal position in the Burdwan District Board. The resources of this District Board are influenced by a fluctuating income from the mines, and an ambitious programme of construction taken up in bumper years had suddenly to be curtailed when this income fell, with the result that three lakhs less was spent by this Board on civil works in

1928-1929 than in the previous year. At the same time it is to be realized that in recent years there has been a general tendency for District Boards to spend proportionately less on the maintenance and development of communications, which historically at least is their primary function, than in the more recently developed sphere of the social This tendency is shown in adecrease of expenditure on communications to Rs. 34:4 lakhs from Rs. 35:9 lakhs in the previous year notwithstanding famine relief work in Western Bengal. It comes just at a moment when the increase of motor traffic is putting an entirely new strain on rural roads; and the Road Fund intended primarily for arterial and inter-provincial roads will only touch the fringe of the problem. Government hope before long to respond to the demand for taxation of local vehicles by introducing in a new form the Bill shelved when the Road Committee was formed; but the adjustment of this taxation and distribution of the proceeds in a province where motor traffic is associated predominantly with one large town raise questions which are by no means easily solved.

The mileage of metalled and unmetalled roads was 2,560 and 16,100 as against 2,545 and 15,792 respectively in the previous year, and in the present position stationary figures are to be welcomed rather than the reverse as a sign that District Boards are at least using their resources to maintain the roads they have, and not dissipating them on the extension of a road system which already exceeds their capacity.

Water Supply—If expenditure on roads tends to be of secondary interest to the modern District Board, no branch is more popular than that on water supply, Rs. 8.3 lakhs in 1928-29. The first wave of enthusiasm for tubewells has subsided in some quarters, the Mymensingh District Board for instance definitely preferring the older types of water supply. Exploitation of the possibilities of the tube-well in Benga is indeed handicapped by two factors One is the failure of most District Boards to realize that the provision of tube-wells on a large scale is useless without the employment of a small staff to do the simple but frequent repairs which the best tube-well pumps need from time to time. The other is the

preference for a cheap and shallow type of tube-wells with a view to putting in new wells at the maximum number of villages rather than insistence on sinking the deeper and more permanent types at a limited number of places of public resort. The Faridpur District Board, for instance, sank 237 wells ranging from 50 to 150 feet in depth at an average cost of Rs. 140 each! The District Boards of the 24 Parganas and Hooghly kept a small mechanical staff for the repair of their wells, but the former district which had sunk over 1,000 tube-wells by the end of the year 1928-1929 is a case very much in point. The Commissioner criticises the expenditure in the North of the district on wells of a shallow type which the villagers could often afford to sink by themselves, while the real centre of the water supply problem, in the South of the district, is neglected.

Construction of the old type of masonry well goes on and calls for little comment, but the place of tanks in a water supply policy raises administrative questions of its own. On the one hand. as the Presidency Commissioner points out, Boards can never hope to construct tanks in sufficient numbers throughout a district, and money is more usefully applied in assistance to private owners. On the other hand even under carefully guarded conditions, the enforcement of which may however be lost sight of with lapse of time, there is a certain nervousness about authorizing expenditure from public funds on tanks which remain private property, whatever the facilities granted for a public right of access.

Since the end of the year under review Government have formulated on lines of greater precision the policy of providing loans for water supply at a concessional rate of interest, which will be effected by making a recurring grant corresponding to the reduction of interest to 3 per cent. The opportunity has been taken of modifying the conditions of the scheme so far as possible in order to meet the suggestions of the District Boards.

10. General Remarks.—A little over a decade has elapsed since District Boards were released from internal official control, in pursuance of the policy laid down by the Government of India in their Resolution of 1918 and so

liberally interpreted by the Government of Bengal. The consensus of the opinion formed by Commissioners and local officers is that within their limitations, and especially those of financial character, the District Boards are essentially carrying out the functions of promoting rural well-being which they designed to fulfil. One most welcome feature is that where the majority of the District Board is not composed of a party in declared opposition to Government (and Bankura was the only District Board of the kind in 1928-29), District Boards and the Chairmen of District Boards have established friendly entente with the district author rities and work in co-operation with Another interesting feature is the capacity for public service of a talented and energetic non-official who assumes office on a District Board. For better or for worse the value of a Board's work seems still to depend more on the Chairman than its majority, and District Officers quote instances, which it would be invidious to detail, of palpable improvement in the affairs of a backward District Board on the assumption of office by a new Executive. There is a tendency, perhaps inevitable, in this Resolution to dwell on the more promising side of District Board work; but after saying so much it would be a mistake to disguise one weak point which causes Government some concern, namely, insufficient internal control of the finances and accounts of District Boards. Audit reports are swelled. with instances of irregularity, amounting it is to be feared often to financial abuses, and the laborious work of the auditor, far from receiving the strict attention due from the Board and its Finance Committee, tends to be quietly shelved until the auditor reappears next year to repeat his sterile task. problem of ensuring closer attention to financial regularity on the part of District Boards, and, as a means to this end, of securing greaten publicity and effective finality for audit criticism is one on the solution of which progress in the field of local self-government in the near future must largely depend.

The Government of Bengal have to record with regret the death of Maharaja Sir Manindra Chandra Nandi, K.C.I.E., of Kasimbazar, who did sterling work as Chairman of the Murshidabad District Board, an office which he vacated shortly before his demise.

The services of the following gentlemen have been brought to their notice for good work done on District Boards during the year.

## DEPARTMENT OF AGRICULTURE. BENGAL.

Dacca, the 7th February 1930.

## Third and Final Report on the Winter Rice Crop of Bengal, 1929-30.

(Note.—On an average of the five years ending 1927-28, the area under Winter Rice in Bengal has represented some 17.7 per cent. of the total area under rice in British India.)

Character of the season.—In the second forecast the weather was already reviewed up till October as having been favourable on the whole. Since then harvesting commenced favourably, although wet weather for some time during the months of December and January interfered with the operation in some districts.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 14,793,700 acres as compared with 15,357,400 acres last year.

Outturn .- From the summary of the district returns appended, it will be seen that seven districts report a normal crop of 100 per cent., fourteen districts a crop varying from 80 to 97 per cent., and the rest from 67 to 75 per cent. of the normal.

As compared with the second forecast, a better crop has been harvested in the districts of Murshidabad, Jessore, Rajshahi, Darjeeling, Faridpur, Chittagong and Noakhali, while in Bankura, Midnapore, Jalpaiguri and Malda, the crop has deteriorated from the provious estimates.

According to the above estimates, provincial outturn works up to 90 per cent. as against 105 per cent. of the normal last year. In my opinion the crop will not be less than

95 per cent. of the normal.

Accepting 95 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 121 maunds of clean grain per acre, is estimated at 6,453,400 tons this year as against 7,404,500 tons last year.

> G. P. HECTOR, Dir. of Agri., Bengal (offg.).

RESOLUTION ON THE ANNUAL PROCRESS REPORT ON FOREST ADMINISTRATION IN THE PRESIDENCY OF BENGAL FOR THE YEAR ENDING THE 31ST MARCH 1929.

### **GOVERNMENT OF BENGAL.**

# Revenue Department.

### Forests.

# CALCUTTA, THE 11TH FEBRUARY 1930.

# RESOLUTION-No. 1891 For.

Read-

The Annual Progress Report on Forest Alministration in the Presidency of Bengal for the year ending the 31st March 1929.

Read also--

The reports of the previous three years and the Government resolutions thereon.

- Mr. E. O. Shebbeare was in charge of the Northern Circle during the year except for a period of five months during which he was deputed to the Empire Forestry Conference in Australia and New Zealand; Mr. E. A. C. Modder acted for him during this period. Mr. J. Homfray held charge of the Southern Circle from the 1st to the 17th April 1928 when he went on leave and Mr. S. J. Curtis held charge for five days until the arrival of Mr. E. Benskin from the United Provinces. The latter acted as Conservator of Forests, Southern Circle, till the 3rd December 1928 when Mr. Homfray, on return from leave, relieved Mr. Benskin and held charge till the end of the year.
- 2. The foreword to the report outlines the main schemes which are receiving the attention of the department. The complaint of the department that, out of Rs. 2,36,718 non-recurring expenditure and Rs. 38,933 recurring expenditure budgetted for, sums of Rs. 30,676 and Rs. 50 only were allotted, is somewhat misleading, because proposals involving expenditure of Rs. 46,000 for a saw mill at Parbatipur and Rs. 9,000 for elephants for the Dacca-Mymensingh Forest Division, were dropped at the instance of the department, while the important scheme for the formation of Ranges in the Sundarbans was found to be susceptible of material reductions in cost, and thus, was not included in the budget. In fact, most of the schemes submitted for inclusion in the budget of 1928-29 have again found their way into the schedules for 1929-30, but their ultimate inclusion in the budget as presented to the Legislative Council must, now as always, depend upon two permanent factors which weigh with business firms as well as Government, the ability to provide the necessary finance, especially in respect of recurring expenditure, and the relative importance of particular schemes. For immediately remunerative projects money can always be found, but for schemes which will not be remunerative until a more distant date, Government, no less than the individual, are compelled to exercise due caution.

The need of Ranges in the Sundarbans is fully recognised by Government and the scheme has now been included in the budget for 1930-31.

Government have agreed to the suggestion that a provision of Rs. 25,000 should be made in the budget to meet unforeseen demands for sleepers, and other produce, necessitating expenditure on the extraction of timber by departmental agency. The proposal that the Forest budget should be separated from the Provincial budget, implies that the development of the forests of Bengal should be given preferential treatment over the manifold

activities of Government in other spheres, e.g., education and public health. It is more than doubtful whether there would be public support to any scheme which subordinated immediately essential interests such as the education and health of the people to the expansion of forest revenue.

- 3. Area.—The area of reserved forest increased by 1,181 square miles to 6,462 square miles. The area of protected forest diminished from 1,854 to 628 square miles or by 1,226 square miles, of which 1,097 square miles in the Sundarbans Division and 90 square miles in the Dacca-Mymensingh Division, are accounted for by their inclusion in the area of reserved forest. There was no change in the area of unclassed forests. The total area under the control of the Forest Department diminished by about 45 square miles by the disforestation of areas more suitable for cultivation than afforestation.
- 4. Working-plans.—The revised working-plan for the Jalpaiguri Division was completed, but the progress of the compilation of the Buxa working-plan was greatly retarded owing to the loss of certain enumeration figures. The revision of working-plans for the Kurseong, Darjeeling and Sundarbans Divisions, was in progress.

The full programme of regeneration could not be carried out but 2,227 acres which were under working-plans were regenerated during the year against 2,435 in the previous year.

- 5. Utilisation.—The saw mill at Siliguri which was started in April 1926 continued to do good work. The total sales of sawn timber from this mill fell from Rs. 1,33,000 to Rs. 1,25,943 during the year. The mill had to face an extremely dull market throughout the year.
- 6. Khedda.—Departmental khedda operations conducted in the Chittagong Hill Tracts Division resulted in the capture of 32 elephants, of which 2 died, 2 escaped, 1 was shot and 9 released. The net return yielded by the operations amounted to Rs. 1,123, but this figure excludes the value of 5 elephants still unsold and 3 elephants taken over by the department.
- 7. Outturn, revenue and expenditure.—There was an all-round diminution in the outturn of forest produce except in bamboos. Both revenue and profit likewise diminished by more than Rs. 2 lakhs during the year, while expenditure diminished by about Rs. 20,000 only. The total revenue for 1927-28 and 1928-29 is compared below:—

Year.			Northern Circle.	Southern Circle.	Total.
			Rs.	Rs.	Rs.
1927-28	• •	••	18,90,169	14,59,311	33,49,480

The amount spent on construction and repairs of roads and bridges was slightly less than in the previous year; no new works of any magnitude were taken up during the year.

The amount spent on construction of new buildings was much less than in the preceding year. The cost of upkeep of the existing buildings was, however, a little more than that in the previous year.

8. The total value of sales of forest produce was about Rs. 3½ lakhs less than in 1927-28. The value of forest produce given free of royalty was Rs. 51,379 against Rs. 49,193 in 1927-28.

Lizard skins having become fashionable, a considerable trade in them has developed. The demand for skins during recent years resulted in such indiscriminate killing of these animals that Government were compelled to take steps for their protection in view of the useful purpose they serve in keeping down the number of snakes. A close season and a minimum size below which immature lizards are entirely protected were prescribed by Government during the year.

In the forest area two persons were killed by crocodiles, but none by tigers in the year under review. A sum of Rs. 1,860 was paid in rewards for killing eleven tigers and capturing two cubs.

The thanks of the Governor in Council are due to Messrs. Shebbeare and Homfray for their successful administration of the Forest Circles and also to Messrs. Benskin of the United Provinces and Modder who officiated as Conservators of Forests during the year. His Excellency in Council also notices with pleasure the record of good work done by other officers of the department referred to in the report.

Ordered that the above resolution be published in the Calcutta Gazette.

Ordered also that a copy of the above resolution be forwarded to the Conservators of Forests, Bengal.

By order of the Governor in Council,

II. J. TWYNAM,

Secretary to the Government of Bengal.
